General Comment

judging by the way the labs did testing for covid that was giving inaccurate reports 50% or more of the time, clearly these labs cannot and do not produce accurate results. i also think that fauci uses this network for his own personal power play rather than making sure it works for the poeopel of this nation. i very much think we need an investigation jofall of this work since so much of it has been totally ineffective in this covid pandemic. the work of this agency rats a grade of f minus for its sloppy, slipshod ineffective duplicitous resutls. we need to take alot of work out of the domain of fauci/collins they did ineffective work inmo and the americans are worse off from their work
