## General Comment

stop all newborn attacks now. this agency is too assiduous and sees this as a profit center more than as an actual health issue and its influence on babies for the last 40 years has been negative rather than positive. nobody has bothered to question the work of this medical nazi institution \but it is time now to do so. the low standard of clinical trials, in which much lying and data falsification has taken place has led to fake medicine that does not do what it is claimed to do we have instead kids maimed for their lives with all kinds of autism, asthma, allergies, etc that we never had before this agency has been responsible for its focus on money for its advisory boards and workers who make millions from these drugs and vaccines under the new pay off methods that mean millions for fauci and others in the CDC, NIH, FDA, etc. these alleged experts have feet of clay. the shots are authorized by those in FDA who are making money from the drug companies whose work they approve so its an insider criminal racket imo. the conflict of interest is rampant and nobody takes themselves out from voting based on getting millions from the drug companies whose products they are busily approving. its an insider i get mine and you get yours. meanwhile the health of our children has been going down down down for the last 50 years. the money is at the root of what is going on. this money slipperiness has to stop. the clinical trials have to be made honest. and we better start letting the kids alone instead of jacking them up with 3 boosters when they dont even have the capability of getting sick from covid. this focus on moneymaking is destructive as can be to the health of all of us in america. the CDC has gone corrupt imo. cut all funding and fire them all. the entire operation sucks of nazism.
