

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pacific Coast Groundfish Trawl Rationalization Program Permit and License Information Collection**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Information Collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before October 11, 2022.

ADDRESSES: Direct all written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648–0620 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jahnava Duryea, National Marine Fisheries Service, California Central Valley Office, 650 Capital Mall, Suite 5–100, Sacramento, CA 95814, (916) 930–3725 or via email at jahnava.duryea@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Marine Fisheries Service (NMFS) requests comments on the extension of a currently approved information collection for the West Coast Region's Pacific Coast Groundfish Trawl Rationalization Program.

The Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, provides that the Secretary of Commerce is responsible for the conservation and management of marine fisheries resources in the

Exclusive Economic Zone (3–200 miles offshore) of the United States. NMFS West Coast Region manages the Pacific Coast Groundfish Fishery in the Exclusive Economic Zone (EEZ) off the coast of Washington, Oregon, and California under the Pacific Coast Groundfish Fishery Management Plan (FMP).

In January 2011, NMFS implemented a trawl rationalization program, which is a catch share program, for the Pacific Coast Groundfish Limited Entry Trawl Fishery. The program was implemented through Amendments 20 and 21 to the Pacific Coast Groundfish FMP and the corresponding implementing regulations at 50 CFR part 660. Amendment 20 established the trawl rationalization program that consists of an individual fishing quota (IFQ) program for the shorebased trawl fleet (including whiting and non-whiting sectors) and cooperative programs for the at-sea mothership and catcher/processor trawl fleets (whiting only). Amendment 21 set long-term allocations for the limited entry trawl sectors of certain groundfish species.

Under the trawl rationalization program, new permits, accounts, endorsements and licenses were established. These consist of: quota share (QS) permits/accounts, vessel accounts, first receiver site licenses, mothership endorsements on certain limited entry trawl permits, mothership catcher vessel endorsements on certain limited entry trawl permits, catcher/processor endorsements on certain limited entry trawl permits, a mothership cooperative permit, and a catcher/processor cooperative permit. NMFS collects information from program participants in order to: (1) establish new permits, accounts, and licenses; (2) renew permits, accounts, and licenses; (3) allow trading of QS percentages and quota pounds (QP) in online QS and vessel accounts, and allow transfer of catch history assignments between limited entry trawl permits; (4) track compliance with program control limits; and (5) implement other features of the regulations pertaining to permits and licenses.

As part of its fishery management responsibilities, NMFS requires this information to determine whether a respondent complies with regulations that pertain to issuance and renewal of permits, and transfer and use of quota. Identification of the participants of the trawl rationalization program, their gear types, descriptions of their vessels, and activity levels are needed to control and determine the extent of fishing and to track inseason quota use. Collection of

this information also allows NMFS to equitably manage annual shorebased trawl allocations for the fishery and enforce control limits such that no person may own or control, or have a controlling influence over, quota for any individual species that exceeds the Shorebased IFQ Program accumulation limits.

There is a concurrent proposed rule (0648–BL41) that is seeking to revise certain parts of the collection.

II. Method of Collection

Information is primarily collected by paper format (USPS) mail and electronically (internet). In some situations, email or phone conversations supplement the information.

The following information is collected by mail: QS permit application forms; late QS permit renewals; vessel account registration requests; late vessel account renewals; trawl identification of ownership interest forms for new applicants, mothership catcher vessel endorsed limited entry permit owners, and mothership permit owners; mothership permit change of vessel registration, permit owner, or vessel owner application forms; mothership cooperative permit application forms; change of mothership catcher vessel endorsement and catch history assignment registration forms; mutual agreement exception forms; mothership withdrawal forms; catcher/processor cooperative permit application forms; material change forms; and QS abandonment requests.

The following information is collected electronically: QS permit renewals; QS percent transfers; QP transfers from a QS account to a vessel account; vessel account renewals; QP transfers from a vessel account to another vessel account; trawl identification of ownership interest forms for online QS and vessel account renewals; first receiver site license application forms (new applicants and re-registrations); and mothership permit renewal forms.

III. Data

OMB Control Number: 0648–0620.

Form Number(s): None.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: Business or other for-profit organizations; non-profit institutions; State, local, or tribal government.

Estimated Number of Respondents: 359.

Estimated Time per Response: QS permit/account application form—20 minutes; QS permit/account online renewal—10 minutes; QS permit/

account late renewal form—15 minutes; QS transfer—10 minutes; QP transfer from QS account to vessel account—5 minutes; vessel account registration request—15 minutes; vessel account online renewal—10 minutes; vessel account late renewal form—15 minutes; QP transfer from vessel account to another vessel account—5 minutes; trawl identification of ownership interest form for new entrants—45 minutes; trawl identification of ownership interest form for renewals—3.2 minutes; first receiver site license application form for new entrants—200 minutes; first receiver site license application form for re-registering license holders—100 minutes; mothership permit renewal form—10 minutes; mothership permit change of vessel registration, permit owner, or vessel owner application form—35 minutes; mothership cooperative permit application form—230 minutes; change of mothership catcher vessel endorsement and catch history assignment registration form—35 minutes; catcher/processor cooperative permit application form—110 minutes; QS abandonment request—10 minutes.

Estimated Total Annual Burden Hours: 663.

Estimated Total Annual Cost to Public: \$12,640.

Respondent's Obligation: Required to Obtain or Retain Benefits.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment

to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XC233]

Marine Mammals; File No. 26562

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that James Hain, Ph.D., Associated Scientists at Woods Hole, Box 721, Woods Hole, MA 02543, has applied in due form for a permit to conduct research on North Atlantic right whales (*Eubalaena glacialis*).

DATES: Written, telefaxed, or email comments must be received on or before September 8, 2022.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the “Features” box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 26562 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 26562 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Carrie Hubard or Shasta McClenahan, Ph.D., (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and

importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The applicant proposes to study North Atlantic right whales (NARW) from Cumberland Island, Georgia, south to Jupiter Inlet, Florida. The purpose of the research is to continue a long-term study of the distribution, abundance, habitat use, behavior, reproduction, and human impacts on NARWs. Research would consist of photo-ID, behavioral observations, counts, and passive acoustic recordings. Annually, researchers may approach up to 25 NARW using boats, and another 40 NARW may be approached from unmanned aircraft systems, manned airplanes, and blimps. If encountered, ten humpback whales (*Megaptera novaeangliae*) may be studied annually. Up to 60 bottlenose dolphins (*Tursiops truncatus*) and 12 Atlantic spotted dolphins (*Stenella frontalis*) may be unintentionally harassed annually. The permit would be valid for 5 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: July 27, 2022.

Julia M. Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
