Description: OLAW has high standards for ensuring the appropriate care and welfare of vertebrate animals. The Guide sets forth the expectation that even if vertebrate animal research is taking place at another institution, all institutions engaged in the research project have a responsibility to document, understand, and ensure that they know and understand the roles of responsibilities of each participating institution.

Members of FDP worked with OLAW, USDA, and the VA to craft a memorandum of understanding that aligns with the expectations of the Guide.

Please join us for this webinar to learn about the development process, view the completed product, and learn how to utilize it.

OMB# 0925-0740 Expiration Date: Sep 20, 2025

Public reporting burden for this collection of information is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information,

including suggestions for reducing this burden, to: NIH. Project Clearance Branch, 6705 Rockledge Drive. MSC 7974. Bethesda, MD 20892-7974. ATTN: (0925-0740). Do not return the completed form to this address.
