Air passengers???? How about the flood of people over our borders DAILY?? Not to mention, we are long past the point of protection. It prevents NOTHING, and is killing our men. Stop the lies and start presenting the factual data for all the upticks in strokes, clots and other horrific consequences taking place with this experimental shot. Other countries are doing so. The Cleveland Clinic has done so, yet you ignored their findings since 2020, and put them in a financial stranglehold like the rest of our medical facilities by threatening to withhold Medicare funding. Anyone still beating this drum should see extreme penalties and extensive jail time.
