

J7. Federal Register Comment from State of Wyoming

This page has been left blank for double-sided copying.

Good Morning Eric,

I would like to submit a comment on the Agency Information Collection Activities: Proposed Collection; Comment Request-Serving SNAP Applicants and Participants With Limited English Proficiency (LEP).

The Wyoming Department of Family Services (DFS) has concerns about the ability to collect LEP data for SNAP applicants. Currently DFS processes and collects data using a legacy eligibility system. Our eligibility system does not have the capability to collect LEP information for individuals or households. LEP data would currently have to be collected manually for Wyoming SNAP Applicants.

Thank you for taking DFS's comments and concerns into consideration.

Marianne Kerzman,

SNAP Program Manager

Department of Family Services
