Dear Kisha Lee,

Thank you for your comment on Understanding the Relationship between Poverty, Food Insecurity, and Well-Being, Docket FNS-2022-0032. This study will collect information on topics such as mental health, food insecurity, and the food environment. We will also collect information on use of services in the community such as private food assistance (e.g., food pantries). Understanding how the COVID-19 pandemic affected food insecurity is beyond the scope of this study.

A handwritten signature in black ink, appearing to read "Michael Burke".
