Dear Propel (creators of the Propel app),

Thank you for your comment on Understanding the Relationship between Poverty, Food Insecurity, and Well-Being, Docket FNS-2022-0032. This study will not collect detailed information on food purchases or how respondents track their food purchases, nor will it collect information on experiences with fraud. The study will collect information on a wide range of income sources (such as from friends and family) and markers of social capital. The study will collect information on a household's ability to weather economic shocks and some information on ability to meet monthly bills and debt payments.

A handwritten signature in black ink that reads "Mike B." with a stylized flourish at the end.
