General Comment

this proposal lies to the americanpeople on what this agency is doing. this agency is failing in its duty and responsibility to the americna people

1. this agency does not protect the public. if it protected the pblic it would not feed all farm animals all the toxic drugs it feeds them to keep them standing up instead of lying down dead from teh awful way they are treated. from their first day of life, every farm animals is treated in teh jost abysmal way with inhumane attacks on their bodyk fed swill food or less and drugged to catatonia, and not allowed to move at all or to see sunshine. the duty to these farm animals is completely negated and the animals suffer horribly and are sick and hardly standing up. theanimals that americans eat are suffering each day of their lives due to this agency moneymaking focus.it is all abot money. nothing is provided to make the farm animasl lives any better. as to the properly labelled, this agency and others try to fool the americanpublic of where the product comes frmo. none of the labrels are truly informative. the scam on teh ameican public is deplorable. cancer is rampant in america from the products allowed by these corrupt sinful negligent agencies focused on money money money.the transport of the animasl and their slaughter is full of germs and viruses and killing of downed animals to make money. nothign is up and up in this industry. the entire industry shoudl be ashamed of themselves all of them producers and agency alike. this proposal shoudl be not supported by any taxpayers untilwe get an honest system that is about humane treatment and care and respect for animals. none of that is shown by this proposa no funding shoudl be allocated until things change. new agency. new rules, respect for farm animals needs to be immiinent.
