To whom it may concern,

Per email received from Loretta Szveduik, Senior labor Standards Specialist at the local Minneapolis HUB office you are **requesting comments per revision to Davis Bacon Surveys:**

1. *Will the new form allow us to submit our collective bargaining agreement to DOL as a whole vs job by job?*
2. *Will the new form recognize wood frame carpenters (503 Wood Framing) as part of the building decision? We build plus 5 story wood frame apartment buildings and that classification is no longer listed on the prevailing wage decision. It used to be included on the wage decision.*
3. *Will the new form allow us to use our collectively bargained rate for final clean by checking the "other" box?*

*Currently there is no subclassification under 1600 – Laborer series numbers for our Cleaning labor. Can this subclassification be established?*

*For example our cleaners are lumped into the 1600 Labor Category. These workers should be classified separately from our typical construction Laborers as their type of work is significantly different as recognized by our collective bargaining with the Laborers Union.*

Also I've reached out to Chris Reyelts of whom I used to submit wage data. I've left him a voicemail. Please forward any information with regard to reporting requirements/deadlines and how to do so electronically if possible.

We'd like to report as quickly and as efficiently as possible so you are aware our wage rates on our existing apartment construction projects.

Thanks,  
Matt Quam
