All,

Under classification: 1301- HVAC Mechanic/Technician > 1302 HVAC Pipe Install, this same classification is duplicated under 2101 – Pipefitter/Steamfitter > 2102 HVAC Piping Install. 1302 needs to be deleted because that is normally pipefitter’s work.

Under classification: 1301- HVAC Mechanic/Technician > 1303 HVAC Duct Install, this same classification is duplicated under 2401 – Sheet Metal Worker > 2402 HVAC Duct Work Install. 1303 needs to be deleted because duct work is normally sheet metal worker’s work.

I do not believe that we need multiply job classifications with the same work classifications. This leaves the work undefined as to who is supposed to be doing the work.

Respectfully,

Tim Clark

Agent/Field Representative

Plumbers, Pipefitters, and HVAC Techs
