all killing/murder of birds should be completely banned right now. it is murderous activity. bird populations are being horribly diminished due to massive toxic pollution, diminution of habitats, and viruses it is time to stop all hunting., murder is never the right way to go. the slime who inhabit these state fish and game agencies want the money and are so slimy they will continue murder of other species for the money, it is all very evil and venomous ban all hunting and murder of birds. these human slime in this killing business need to be stopped
