

Emerging Horizons in Retinal Genetics, Biology and Disease Registration is Open

*Retinal Disease Interest Group (RDIG) and Neurobiology, Neurodegeneration & Repair Laboratory (NNRL; Chief: Dr. Anand Swaroop) at the National Eye Institute are organizing a 2-day symposium: "**Emerging Horizons in Retinal Genetics, Biology and Disease.**" The goals of the symposium are: (i) to highlight future directions (conceptual as well as technology-driven) that are expected to make a major impact on our understanding of retinal biology and disease and help in therapeutics development; and (ii) to provide a training experience wherein trainees and junior scientists can engage with leaders in the field.*

*The symposium will be held in hybrid format (in person + Zoom) on **March 16-17, 2023** and features a slate of pioneers and rising stars in the field of vision science.*

Additional funding provided by the Foundation for Advanced Education in the Sciences (FAES). For more information, please visit <https://education.faes.org/>

OMB No.: 0925-0740

Expiration Date: 09/30/2025

Public reporting burden for this collection of information is estimated to average 3 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705

Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.

* Required
