Comment

This is a comment from the ND Department of Emergency Services for Docket ID FEMA-2022-0056, OMB No. 1660-0017. We have reviewed the documentation and watched the 25 minute video. Our primary concern and main comment/question revolves around how these new forms will be integrated or potentially replace the same functions that are supposed to be in Grants Portal. Many of these new forms are functions that already exist in Grants Portal and seem to be a duplication. We are assuming that these forms will likely replace some of the functions of Grants Portal, but that also makes us wonder how this will actually speed up the overall process unless the program is going to operate primarily on self certifications and taking an applicants word on damages. We think there is definitely ways to make the overall process faster, we just don't understand yet exactly how these proposed changes will function yet. Thanks.
