AZ Prototype Inc. is a minority, woman-owned, advanced manufacturing company located right in the heart of Arizona's fast growing semiconductor industry.

Headquartered in Mesa, Arizona and operating out of 30,000 square foot facility. There are currently 66 long time employees and 90% are minority.

AZ Prototype has formed an alliance of prototype and production partners since company inception in 2009. Customers range from semiconductor, aerospace, military and medical.

Core manufacturing services offered to the semiconductor ecosystem include; printed circuit board design, layout and assembly, advanced testing and fabrication, cable and wire harness custom assembly.

The CEO, Debbie Nguyen, is nationally recognized as a recipient for the Renaissance Woman of the Year award.

AZ Prototype continues to be a leader and choice for both prototype and production needs for specialized industries.

Proudly AS9100 and ISO 9001 Certified. PRI Registrar (Performance Review Institute). ITAR-Registered. SBA WOSB Certified (Woman Owned Small Business).
