Dear Policy Associate Green and Chair Burke,

Thank you for your comments regarding Agency Information Collection Activities; Proposals, Submissions, and Approvals: Supplemental Nutrition Assistance Program Education and Obesity Prevention Grant National Program Evaluation and Reporting System (Docket FNS-2022-0017). All public comments will be taken into consideration and addressed in the information collection request submitted to the Office of Management and Budget (OMB). When the information collection request is submitted to OMB, a 30-Day Notice will be published in the Federal Register announcing its submission. The submission, with responses to public comments, will be available at www.reginfo.gov.

Your comments and support of SNAP-Ed are valued. As such, once the responses have been posted, I will reach out to invite APHSA to discuss your comments and FNS responses.

Sincerely,

Aurora Calvillo Buffington
