General Comment

i do not support thi sprogram of the lying sneaking duplicitous cdc at all. this agency has been getting trillionis of dollars from us taxpayer and they have the effrontery and gall to keep information from uis for 76 years in a govt which has told us it i sopen and transparent. how is that open and transparent. it shows the lhying and profiteering to individuals getting lifetime pensions has been their first priority and treating the american public as saps for the last 20 years at least. we used to have good health in america. now we have the people we hired fo give us good health instead being focused on getting in line for big pharm millionaires and forgetting they have anyh bobligfation at all for fair dealing to the americanpublic. we have a bunch of slick propaganda artists who cant give th eamericna public the trush. nowhere did we get the truth during this pandemic. the cdc performed int he word way possible. it helped millions of people die aroudn the world through prevention of the truth. hyou sent out letters to state medical agencies to stop practiing people who had issues with your pronouncements even thoguh they were fully accredited scientits with genuine questions about your way to handle this pandemic. you stonewalled them.

this agency is the pits. it needs shut down. it cannot recoer. we want them all fired. every lying one of them. i do not support anythign jtheses louses d.

this commetn is for hte pubilc record.telling the amerien apeople they dont own their own bodies = does not go over with me. we own our own bodies because when they dont work we have to pay for them with the slick deal you made with big pharma. any injruies frmo that vaccine are the responsibilityh of the families involved. hyou are slick criminals in the cdc.you dont operate with any ethics or morals at all.
