Thank you, Kelly. I look forward to the 30-day notice and ICR submission. All the best in getting to that point,

Andrew

Hello Andrew,

I am sorry for a long delay in my response to you. We are planning to include a set of test questions on the gender identity and sexual orientations in the 2024 SED as part of on-going research the NCSES is conducting. We are still working on finalizing our test plan for the 2024-25 SED OMB ICR package, which will be submitted to OMB at the same time the second FRN will be posted in February.

Thanks,

Kelly

Thank you, Kelly. Are there plans to revise the SED for 2024-25 or will it be the same as now?

Andrew

Thank you for your support of the Survey of Earned Doctorates.

The 2024-2025 SED ICR is currently being prepared and will be submitted to OMB once the 60-day public comment period on the NSF's plan to renew the SED collection ends on February 7, 2023.

The SED ICR will be submitted to OMB for clearance with the second federal register notice of 30-day comment period in mid-February 2023.

Meanwhile, if you have any questions, please feel free to contact me.

Thanks,

Kelly

Dear Suzanne,

On behalf of the American Economic Association (AEA) and the Industry Studies Association (ISA), I request a copy of the draft ICR for the Survey of Earned Doctorates (OMB # 3145-0019), as invited by the [Federal Register](#).

Thank you and we look forward to seeing the draft data collection instrument and supporting statement. In the meantime, I have posted the following for AEA and ISA members: <https://www.aeaweb.org/forum/3326/2024-2025-survey-of-earned-doctorates-nsf-invites-comments> and am happy to revise on the receipt of draft ICR materials.

Sincerely,

Andrew Reamer
