On February 27, 2023, our organization submitted the attached comment in response to the Veterans Benefits Administration's request for comment, VA-2022-VACO-0001-0256, entitled "Agency Information Collection Activity: Servicemembers' Group Life Insurance-Traumatic Injury Protection (TSGLI) Application for TSGLI Benefits and TSGLI Appeal Request Form." This comment explained and showed evidence regarding much needed changes to these forms, and added clarification for planning and time estimates that will help veterans receive necessary benefits as the law provides. Within 48 hours of the public comment period closing, the Veterans Benefits Administration announced a request to submit the forms without any changes. We feel the agency may have not have given due consideration to the information contained within our comment. We therefore offer our comment directly to OMB, and respectfully request OMB consider this information.
