

Your 2023

**Census of
Aquaculture will
arrive soon.**

**CENSUS OF
AGRICULTURE**

United States Department of Agriculture
National Agricultural Statistics Service

Last conducted nearly a decade ago, this census:

- Serves as the foundation for many decisions involving the sustainability and growth of the U.S. aquaculture sector.
- Helps aquaculture organizations assess the current state of this important part of the U.S. economy.

By federal law, USDA's National Agricultural Statistics Service will keep your identity and your answers confidential.

Your responses will help ensure that policymakers and industry leaders and businesses have reliable information to advocate for the aquaculture industry.

Thank you for responding.
