

STAR RFA CA-20-027/028 Investigators' Meeting - Registration Questionnaire

In 2018 the [STAR Act](#), a bipartisan childhood cancer bill designed to advance childhood and AYA cancer research was passed. In response, the National Cancer Institute (NCI) issued funding opportunities through [RFA-CA-20-027](#) and [RFA-CA-028](#) with the goal of reducing morbidity and improving care for survivors of pediatric and adolescent/young adult (AYA) cancers. Twenty-three innovative research projects were selected for funding through these opportunities.

NCI is now planning to host a **virtual** investigators' meeting for the [STAR Act RFA awardees](#) in the Fall of 2023. To ensure this meeting is valuable to everyone, we are asking awardees for input on potential dates and topics. **Please fill out this survey by May 22.** Once the date and meeting agenda are finalized, we will send you a calendar invite along with an event website with meeting details.

Thank you for your input and we look forward to hosting the first STAR Act Investigators' Meeting!
