we should not allow removal of conditions on permanent status at all at any time. those people who are allowed temporary residence should go home to their home country at the end of their permitted time here. the usa has been overwhelmed by 20 million additional residents who are taking up all the usa housing so that americans cannot find places to live anymore with this huge allowance of foreign lawbreakers. also our education system is full up and the costs are skyrocketing with all the foreign kids in our schools, causing financial ruin for american taxpayers having to pay the costs for teachers for all of these foreign students who don't belong in this country in the first place. there are no homes left for american citizens with these foreigners. there is less food for americans with these 20 million foreigners - they have driven up the cost of food, these 20 million foreigners have driven up the costs of our hospitals. some of the foreigners have medical bills of 2 million dollars that our social security medical fund is paying for., can you imagine that. when was the last time the u.s. gov paid \$20 million for medical care for an american citizen? have you ever heard of the feds doing that? the costs driven up by letting in all these foreigners to partake of first claim on our tax dollars is bankrupting all of us. in these inflation times caused by biden, we simply cannot afford this out of control spending for foreigners. send them all home to their own country. after all some of these central american countries are already making deals with china. and russia.
