Dear representative of Medical Information Technology Inc.,

Thank you for the comments on the 60-day federal register notice for the TRANSCEND demonstration project and for your commitment to appropriate data use and decreasing the burden of information collection on the healthcare community and the general public. We appreciate your review.

We plan to utilize established data collection and reporting systems that the recipients already have in place, with minimal additional data collection that is needed to monitor and evaluate these community-to-clinic programs.

Sincerely,

A handwritten signature in black ink that reads "Anne Kimball". The signature is fluid and cursive, with the first name "Anne" and last name "Kimball" clearly legible.
