Dear Mark Heringer and Julian Johnson of the San Francisco Community Health Center,

Thank you for the comments on the 60-day federal registrar notice for the TRANSCEND demonstration project and for your commitment to HIV prevention and the overall health and wellbeing of transgender and gender non-conforming people. We appreciate your review.

The burden hours reflect the amount of time we expect it will take for the staff and clients to provide the requested information. We understand that transgender persons experiences barriers to care. We have adjusted the burden hours based on the finalized data collection plans, and the data collection should not create care disruptions.

Sincerely,
