**16th Annual NIH CounterACT
Network Research Symposium**

**August 21st-23rd, 2023
National Institutes of Health
Natcher Conference Center
Bethesda, MD**

The 16th Annual Countermeasures Against Chemical Threats (CounterACT) Network Research symposium will bring together current active awardees to discuss recent advancements in research and foster more collaboration among scientists. It also is a chance to meet and interact with government and industry stakeholders. More information on the meeting is forthcoming.
