As a service provider with clients in the Virgin Island as well as all other US States, the ability to have the W-2 be the same for the territories as required for the other states is imperative.

Our VI client W-2s require multiple print outs (pages) to the employee. This makes us have different programming of our system to allow for the additional pages, we then have to add additional support staff to print, separate and manually stuff into envelopes for mailing.

With our standard US state W-2's, we are able to print the W-2's on sealer paper stock. We are able to print one page for each employee, stick all of the W-2's for a client into the sealer and "zip" they all go through. We need one staff member to do all this.

Thank you for allowing comments on this subject.

Karen Kulp

Director, P/R & P/R Tax Services
