## General Comment

omg nononononthis agency needs to bwe shut down. this agency needs to be investigated for criminal activity that hurt this nation, caused economic chaosw, and is killing people very single day. this agency grade for its work shoudl be f minus or zero. i am against renewing this agency ever for anything. this agency performs its mission as if your goal is to enrich yourself and big pharma to the detriment of every citizen of america. you have de,vastated america. this agency does not provide health info to people it make them fearful. it forgets about the immune system we all have. it wants to make its doctors rich but its citizens dead. this agency provides anti health material to the usa. and the world. this agency is not saving lives. it is killing people. it is putting them out of jobs. it is mandating completely unnecessary vaccines that do not prevent transmission and do not protect people from covid. this agency is power mad and moneymad. no way shoudl this agency get approval to operate any longer. it is a detriment to the usa and its citizens. its grade is zero or f minus. it has economically devastated america and its citizens. and killed people all over the world. it does not respect science. when you have a chump like anthony fauci stand up there and say he is science, something is desperately wrong with this agency. clearly that is not science at all. fire everybody at the cdc.
