### Comment

there shoujdl be no relief for any foreigner. they should be found illegal if they committed an illegal act of entering this country without proper adherence to americanlaws. there is no reason to allow lawbreakers like the filthy biden is dong in ignoring laws that are on our books on immigration and how you may enter the country legally. we have so many illegals here now we shoujd have a moritorium to keep all foreigners out of this cuntry. we are being overrun with the world population because they get freebies whent hey get here. american taxpaeeyrrs are being bankrupted by the costs of these lawbfreaking invaders coming here and gettnig free food, free rent, free medical care and frees school, all of which we pay throught he hose for, what the hell is ghoing on here where a country penbalizes its own citizens for foreign freeloaders. get them all out. eveyr single onew of them that invaded this countr. get them out on their bcksides. throw thgem out.,there is no reason to make any amendments of any kind.
