## General Comment

this makes no sense as a project for taxpayer to pay for. the fact is you have done endless studies on truck drivers, which apply equally to taxi drivers. there is no need to duplicjate your work for the diffrence between taxi driers and truck dfrivers. they share the same issues with fatigue. this is just a way for this lousy corrupt agency to get more tax dollars for crap projects where they abuse animals in secret labs all over the world, or want tyo inject kids with vaccines that will kill them or injure them. this agency needs shut down and investigation right nowl it has just caused economic chaos in america with inept slipslhod negligent work on a vaccine that does not work. this agency is the pits. this agency gets a grade of f minus or zero for its work. this agency is of no value to the american public. this agency in fact is anti american and money mad. i ask for this agency to be shut down. take the trillions they get from all americans away from this corrupt agency now. this comment is for the public erecord.
