Stop worrying about offending companies and help the sick, the obese, the discriminatory eaters, and others who need to know what is in their foods.

Colors help and are easy for most people to understand, but I cannot rely on somebody else to determine what is safe/unsafe, healthy/unhealthy, toxic/nontoxic, etc.

We need you to strengthen the warnings dramatically. Now, and quickly.

Knowing the specifics of a count, such as sodium, is critical to me because I despise too much salt in foods that I purchase, for instance.

Thank you.
