PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on July 28, 2023, on behalf of Brooklyn Bedding LLC, Phoenix, Arizona; Carpenter Company, Richmond, Virginia; Corsicana Mattress Company, Dallas, Texas; Future Foam, Inc., Council Bluffs, Iowa; FXI, Inc., Radnor, Pennsylvania; Kolcraft Enterprises, Inc., Chicago, Illinois; Leggett & Platt, Incorporated, Carthage, Missouri; Serta Simmons Bedding, Inc., Doraville, Georgia; Southerland Inc., Antioch, Tennessee; Tempur Sealy International, Inc., Lexington, Kentucky; the International Brotherhood of Teamsters, Washington, DC; and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO ("USW"), Washington, DC. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes affirmative determinations of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes affirmative determinations of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/reports/active_import_injury_questionnaires and <https://ids.usitc.gov/case/8137/investigation/8432>.

Mattresses covered by these investigations are all types of youth and adult mattresses. The term "mattress" denotes an assembly of materials that at a minimum includes a "core," which provides the main support system of the mattress, and may consist of innersprings, foam, other resilient filling, or a combination of these materials. Mattresses also may contain: (1) "upholstery," the material between the core and the top panel of the ticking on a single-sided mattress, or between the core and the top and bottom panel of the ticking on a double-sided mattress; and/or (2) "ticking," the outermost layer of fabric or other material (e.g., vinyl) that encloses the core and any upholstery, also known as a cover.

The scope of these investigations is restricted to only "adult mattresses" and "youth mattresses." "Adult mattresses" are frequently described as "twin," "extra-long twin," "full," "queen," "king," or "California king" mattresses. "Youth mattresses" are typically described as "crib," "toddler," or "youth" mattresses. All adult and youth mattresses are included regardless of size and size description.

The scope encompasses all types of "innerspring mattresses," "non-innerspring mattresses," and "hybrid mattresses." "Innerspring mattresses" contain innersprings, a series of metal springs joined together in sizes that correspond to the dimensions of mattresses. Mattresses that contain innersprings are referred to as "innerspring mattresses" or "hybrid mattresses." "Hybrid mattresses" contain two or more support systems as the core, such as layers of both memory foam and innerspring units.

"Non-innerspring mattresses" are those that do not contain any innerspring units. They are generally produced from foams (e.g., polyurethane, memory (viscoelastic), latex foam, gel-infused viscoelastic (gel foam), thermobonded polyester, polyethylene) or other resilient filling.

Mattresses covered by the scope of these investigations may be imported independently, as part of furniture or furniture mechanisms (e.g., convertible sofa bed mattresses, sofa bed mattresses imported with sofa bed mechanisms, corner group mattresses, day-bed mattresses, roll-away bed mattresses, high risers, trundle bed mattresses, crib mattresses), or as part of a set (in combination with a "mattress foundation"). "Mattress foundations" are any base or support for a mattress. Mattress foundations are commonly referred to as "foundations," "boxsprings," "platforms," and/or "bases." Bases can be static, foldable, or adjustable. Only the mattress is covered by the scope if imported as part of furniture, with furniture mechanisms, or as part of a set, in combination with a mattress foundation.

Excluded from the scope of these investigations are “futon” mattresses. A “futon” is a bi-fold frame made of wood, metal, or plastic material, or any combination thereof, that functions as both seating furniture (such as a couch, love seat, or sofa) and a bed. A “futon mattress” is a tufted mattress, where the top covering is secured to the bottom with thread that goes completely through the mattress from the top through to the bottom, and it does not contain innersprings or foam. A futon mattress is both the bed and seating surface for the futon.

Also excluded from the scope are airbeds (including inflatable mattresses) and waterbeds, which consist of air- or liquid-filled bladders as the core or main support system of the mattress.

Also excluded is certain multifunctional furniture that is convertible from seating to sleeping, regardless of filler material or components, where that filler material or components are upholstered, integrated into the design and construction of, and inseparable from, the furniture framing, and the outermost layer of the multifunctional furniture converts into the sleeping surface. Such furniture may, and without limitation, be commonly referred to as “convertible sofas,” “sofabeds,” “sofa chaise sleepers,” “futons,” “ottoman sleepers” or a like description.

Also excluded from the scope of these investigations are any products covered by the existing antidumping duty orders on uncovered innerspring units from China or Vietnam. See Uncovered Innerspring Units from the People’s Republic of China, South Africa, and Socialist Republic of Vietnam: Continuation of Antidumping Duty Orders, 84 FR 55285 (Oct. 16, 2019).

Also excluded from the scope of these investigations are bassinet pads with a nominal length of less than 39 inches, a nominal width less than 25 inches, and a nominal depth of less than 2 inches.

Additionally, also excluded from the scope of these investigations are “mattress toppers.” A “mattress topper” is a removable bedding accessory that supplements a mattress by providing an additional layer that is placed on top of a mattress. Excluded mattress toppers have a height of four inches or less.

The products subject to these investigations are currently classifiable under HTSUS statistical reporting numbers 9404.21.0010, 9404.21.0013, 9404.21.0095, 9404.29.1005, 9404.29.1013, 9404.29.1095, 9404.29.9085, 9404.29.9087, 9404.29.9095. Products subject to these investigations may also be reported under HTSUS statistical reporting numbers 9401.41.0000, 9401.49.0000, and 9401.99.9081. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to these investigations is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing mattresses (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Jordan Harriman (202-205-2610, jordan.harriman@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values" –Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment. **For the purposes of this questionnaire, commercial U.S. shipments should include (a) sales to distributors, (b) sales to retailers, and (c) sales to end users; but should not include retail level sales made to individual customers through your firm's own retail establishments (either brick-and-mortar stores or online).**

"Internal consumption, including product shipped to your firm's retail establishments" – Product consumed internally by your firm, which includes merchandise that your firm shipped to your own firm's retail establishments (i.e., shipped to either a bricks-and-mortar store or to an online order fulfillment center). Such transactions are to be valued at fair market value and not the total value of final downstream processed merchandise in the case of it being used in some further manufactured product, nor the retail sale value in the case of your firm owning and operating its own retail establishments or using a third-party fulfillment center to fulfill retail level sales.

"Transfers to related firms" –Shipments made to related firms. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" --Finished goods inventory, not raw materials or work in progress.

"Brick and mortar" – U.S. shipments (i.e. inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) to retailers that resell mattresses to consumers in physical stores. Also include mattresses shipped/transferred to your own firm's retail establishments.

"Internet/online" – U.S. shipments (i.e. inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) to retailers that resell mattresses to consumers over the internet. Also include mattresses shipped/transferred for your own firm's online/internet sales.

"Omni-channel" – U.S. shipments (i.e. inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) shipments to retailers that resell mattresses to consumers in both physical brick and mortar stores and over the internet.

Definitions (Continued)

"Distributors" – U.S. shipments (i.e. inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) to unrelated entities that resell mattresses to retailers that then resell the mattresses to consumers.

"End users" – U.S. shipments (i.e., inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) to business/corporate/institutional end users (for example, hotels, hospitality businesses, medical entities, and government entities).

"Mattress-in-a-box" ("MiBs") are mattresses of any size, with or without innersprings, that are rolled and compressed, whether or not further packaged in plastic or other packaging material for delivery in the compressed state to the ultimate consumer purchaser. These mattresses may be referred to by a variety of names, including "mattresses in a box", "MiBs" or "bed in a box".

"Non-MiB" are all mattresses not covered by the definition of MiB above. They include mattresses of any size, with or without innersprings, that are NOT both rolled and compressed. These mattresses, which may or may not be compressed, are sometimes referred to as "flat-packed" mattresses ("FPM").

"Innerspring mattresses" are mattresses that contain innersprings, which are a series of metal springs joined together in sizes that correspond to the dimensions of finished mattresses. Innersprings may be comprised of wrapped coils or open/non-wrapped coils. Wrapped innerspring coils consist of coils that are individually encased in a nonwoven or woven material in rows, which rows are then bound together to form an innerspring. Open/non-wrapped coils are generally joined together by helical wire.

"Non-innerspring mattresses" are mattresses that do not contain any innerspring units. They are generally produced from foams (e.g., polyurethane, memory (viscoelastic), latex foam, gel-infused viscoelastic (gel foam), thermobonded polyester, polyethylene) or other resilient filling.

"Hybrid mattresses" contain two or more support systems as the core, such as layers of both memory foam and innerspring units.

"Crib/toddler mattresses" have a width exceeding 27 inches, a length exceeding 51 inches, and a depth between 1 inch and 6 inches inclusive, on a nominal basis. Such mattresses are typically designed to fit USA standard full-size cribs.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

Are the purchase cost data reported above:	✓ if Yes
In actual dollars (not \$1,000) and actual mattresses?	<input type="checkbox"/>
Valued at landed duty-paid import value (i.e., value at the U.S. border after clearing Customs)?	<input type="checkbox"/>
Reported only for imports used for internal consumption or for your firm's retail sale?	<input type="checkbox"/>
Less than or equal to the quantities and values reported in part II for imports in each period?	<input type="checkbox"/>
Explanation(s) for any boxes not checked:	

Complete these questions only if your firm reported data on the previous page, otherwise skip to question III-4.

The following questions ask about the costs/benefits (not included in the LDP values reported above) that factor into your firm's decision to import mattresses rather than purchase from a U.S. producer or importer of mattresses.

III-3o. Additional costs for your firm's imports of mattresses for your firm's retail sale.—

- i. Did your firm incur any additional costs by importing mattresses rather than purchasing from a U.S. producer or importer (e.g., logistical or supply chain management costs, warehousing/inventory carrying costs, insurance or other risk management fees, demurrage fees, indirect and overseas costs)?
- ☐ No ☐ Yes—Please answer parts ii, iii, and iv.
- ii. Please provide an estimate of the total additional cost incurred (as a percentage compared to LDP value) when importing mattresses rather than purchasing from a U.S. producer or importer. (Report only the portion that is related to your firm's importing activities, either directly or indirectly, and not already included in the LDP value. Do NOT include any costs that also would be incurred if your firm purchased the product from a U.S. producer or importer.) _____ percent compared to LDP value.
- iii. Please identify and explain the specific additional costs incurred by your firm and estimate each cost (in percent) compared to the cost of importing. (Only report costs and the portion of each cost that was related to your firm's importing activities for mattresses, either directly or indirectly, and that are not already included in the LDP value. Do NOT report costs that your firm would incur when purchasing mattresses from a U.S. producer or importer.)

Costs	Estimated percentage compared to LDP value (percent)	Explanation

- iv. Briefly describe how your firm's additional costs (beyond the purchase price) by importing mattresses directly compare with the additional costs your firm incurs when purchasing from a U.S. producer or U.S. importer.

--

III-3p. **Decision basis.**—To which source(s) does your firm compare costs in determining whether or not to import mattresses? Check all that apply.

U.S. importers	U.S. producers	Neither U.S. importers nor U.S. producers
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

III-3q. **Benefits of importing mattresses.**

- i. Briefly identify the benefits of importing mattresses instead of purchasing mattresses from a U.S. importer or from a U.S. producer.

--

- ii. Is it your firm's experience that the mattresses your firm imported from subject countries are priced lower than they would be if your firm purchased from a U.S. importer or U.S. producer?

Imports are priced lower when	No	Yes (If yes to either, please answer parts iii and iv.)
Not including the additional costs above	<input type="checkbox"/>	<input type="checkbox"/>
Including the additional costs above	<input type="checkbox"/>	<input type="checkbox"/>

- iii. Please estimate your firm's savings by importing mattresses instead of purchasing from a U.S. producer or U.S. importer since January 1, 2020 (as a percent of the purchase price from the U.S. importer or U.S. producer). For your estimate, compare the price of purchasing from a U.S. importer or U.S. producer to the cost of direct imports (including the additional costs described above in III-3b).

Factors	Estimated savings (percent of purchase price from U.S. importer/producer)
U.S. producer	%
U.S. importer	%

- iv. What methods or experience did you base the estimates in III-3diii (i.e. based on previous transactions with U.S. producers and/or U.S. importers, market research, etc.) Check all that apply.

III-24. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.

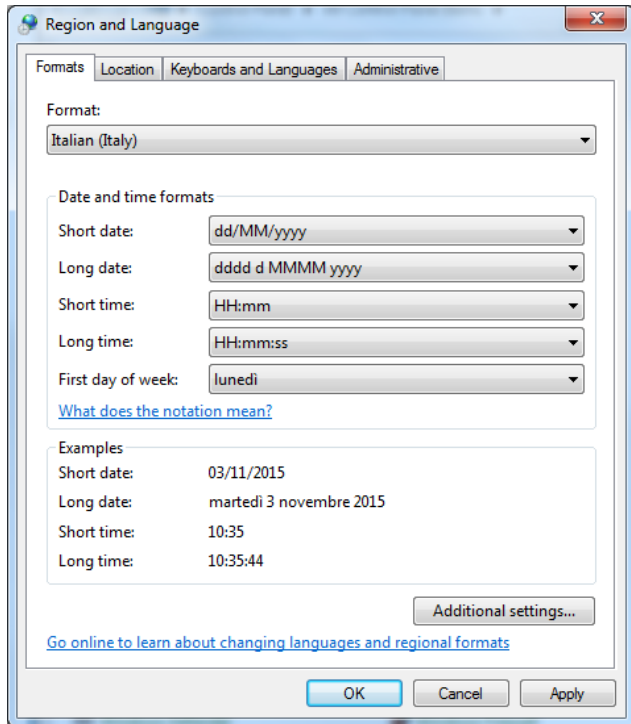

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.
