General Comment

teh taxpayers of this couuntry believe this agency has been regulatorily captured and is not workign for the good of the population of america at all. it is working to deliver statistics which are flawed, substandard,negligent and used for othr purposes than health. is it used to keep doctors in line so they dont consider the needs of their patients first. frankly, in this last psandemic all the doctors were kept in line by the cdc so that few of them were willing to risk their jobs to come out with truth. our american doctors were told to hew the party line of the cdc and to throw the health of their patients to the wind even though honest doctors came out and told the cdc they were propagandizing an experimental gene therapy that woudl injure them. it has in fact killued and injured more and the initial pandemic came out of china because of funding from the niaid cdc dr fauci criminality imo. thepublic is sick of ghe dishonesty of this agencyl. we need it shut down. we dont need it funded for more dishonesty, propagandeizing and threatening honest doctors. we have seen how truly corrupt this agency is. cut all funding to thiw agency. their work is worth zero or f minus.
