General Comment

is this to keep this nations [hysicians in line so thjat they dont dare speak out against the cdc. you certainly propagandized this nationally during the pandemic that anybody who had any ideas on the wuhan epidemic besides the cdc needed to be punsihed. you sent that word out to the state boards of physicians that they should bring charges against physicians who dared to speak out and say the cdc was nurs. it is my opinionnn that there are criminals at the cdc who need to be investigated who are in fact preventing sound science for this country and instead pushing inadequate unsafe profitable drugs and .vaccines. thatnever should be on the market. the profitabililty angle in the drug/vaccine market seems to be the overrriding factor these days, nto the healthiness of them and how they can help america . who can they make rich. the billions made by moderna and phyzier shows this focus. instead of pushing back to see that what they come up with is safe, you simnply advocate for them and push unsafe products oj the market. i am in favopr of thjis agency being criminally investigated but closed down immediately it has lost aany factor of publi health. it is nothing but a criminal crime fmily posing as a health agency. it is the mafioso in drag.i am not at all in favor of any taxpoyer dollars going to this moneymad agency that lies and propagandizes to this nation.shut down the cdc
