### **U.S. IMPORTERS' QUESTIONNAIRE**

# TIN MILL PRODUCTS FROM CANADA, CHINA, GERMANY, NETHERLANDS, SOUTH KOREA, TAIWAN, TURKEY, AND UNITED KINGDOM

This questionnaire must be received by the Commission by <u>September 15, 2023</u>

See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping duty investigations concerning tin mill products from Canada, China, Germany, Netherlands, South Korea, Taiwan, Turkey, and United Kingdom (Inv. Nos. 701-TA-685 and 731-TA-1599-1606 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

#### PART I.—GENERAL INFORMATION

**Background.**--This proceeding was instituted in response to petitions filed on January 18, 2023, by Cleveland-Cliffs Inc. and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union ("United Steelworkers" or "USW") Cleveland, Ohio and Pittsburgh, Pennsylvania. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to these proceedings are available at <a href="https://ids.usitc.gov/case/8105/investigation/8362">https://ids.usitc.gov/case/8105/investigation/8362</a>.

<u>Tin mill products</u> covered by these investigations are tin mill flat-rolled products that are coated or plated with tin, chromium, or chromium oxides. Flat-rolled steel products coated with tin are known as tinplate. Flat-rolled steel products coated with chromium or chromium oxides are known as tin-free steel or electrolytic chromium-coated steel. The scope includes all the noted tin mill products regardless of thickness, width, form (in coils or cut sheets), coating type (electrolytic or otherwise), edge (trimmed, untrimmed or further processed, such as scroll cut), coating thickness, surface finish, temper, coating metal (tin, chromium, chromium oxide), reduction (single- or double-reduced), and whether or not coated with a plastic material.

All products that meet the written physical description are within the scope of this investigation unless specifically excluded. The following products are outside and/or specifically excluded from the scope of this investigation:

- Single reduced electrolytically chromium coated steel with a thickness 0.238 mm (85 pound base box) (± 10%) or 0.251 mm (90 pound base box) (± 10%) or 0.255 mm (± 10%) with 770 mm (minimum width) (± 1.588 mm) by 900 mm (maximum length if sheared) sheet size or 30.6875 inches (minimum width) (± 1/16 inch) and 35.4 inches (maximum length if sheared) sheet size; with type MR or higher (per ASTM) A623 steel chemistry; batch annealed at T2 ½ anneal temper, with a yield strength of 31 to 42 kpsi (214 to 290 Mpa); with a tensile strength of 43 to 58 kpsi (296 to 400 Mpa); with a chrome coating restricted to 32 to 150 mg/m2; with a chrome oxide coating restricted to 6 to 25 mg/m2 with a modified 7B ground roll finish or blasted roll finish; with roughness average (Ra) 0.10 to 0.35 micrometers, measured with a stylus instrument with a stylus radius of 2 to 5 microns, a trace length of 5.6 mm, and a cutoff of 0.8 mm, and the measurement traces shall be made perpendicular to the rolling direction; with an oil level of 0.17 to 0.37 grams/base box as type BSO, or 2.5 to 5.5 mg/m2 as type DOS, or 3.5 to 6.5 mg/m2 as type ATBC; with electrical conductivity of static probe voltage drop of 0.46 volts drop maximum, and with electrical conductivity degradation to 0.70 volts drop maximum after stoving (heating to 400 degrees F for 100 minutes followed by a cool to room temperature).
- Single reduced electrolytically chromium- or tin-coated steel in the gauges of 0.0040 inch nominal, 0.0045 inch nominal, 0.0050 inch nominal, 0.0061 inch nominal (55 pound base box weight), 0.0066 inch nominal (60 pound base box weight), and 0.0072 inch nominal (65 pound base box weight), regardless of width, temper, finish, coating or other properties.
- Single reduced electrolytically chromium coated steel in the gauge of 0.024 inch, with widths of 27.0 inches or 31.5 inches, and with T-1 temper properties.

- Single reduced electrolytically chromium coated steel, with a chemical composition of 0.005% max carbon, 0.030% max silicon, 0.25% max manganese, 0.025% max phosphorous, 0.025% max sulfur 0.070% max aluminum, and the balance iron, with a metallic chromium layer of 70- 130 mg/m2, with a chromium oxide layer of 5-30 mg/m2, with a tensile strength of 260-440 N/mm2, with an elongation of 28-48%, with a hardness (HR-30T) of 40-58, with a surface roughness of 0.5-1.5 microns Ra, with magnetic properties of Bm (kg) 10.0 minimum, Br (kg) 8.0 minimum, Hc (Oe) 2.5- 3.8, and MU 1400 minimum, as measured with a Riken Denshi DC magnetic characteristic measuring machine, Model BHU-60.
- Bright finish tin-coated sheet with a thickness equal to or exceeding 0.0299 inch, coated to thickness of ¾ pound (0.000045 inch) and 1 pound (0.00006 inch).
- Electrolytically chromium coated steel having ultra flat shape defined as oil can maximum depth of 5/64 inch (2.0 mm) and edge wave maximum of 5/64 inch (2.0 mm) and no wave to penetrate more than 2.0 inches (51.0 mm) from the strip edge and coilset or curling requirements of average maximum of 5/64 inch (2.0 mm) (based on six readings, three across each cut edge of a 24 inches (61 cm) long sample with no single reading exceeding 4/32 inch(3.2 mm) and no more than two readings at 4/32 inch (3.2 mm)) and (for 85 pound base box item only: crossbuckle maximums of 0.001 inch (0.0025 mm) average having no reading above 0.005 inch (0.127 mm)), with a camber maximum of ¼ inch (6.3 mm) per 20 feet (6.1 meters), capable of being bent 120 degrees on a 0.002 inch radius without cracking, with a chromium coating weight of metallic chromium at 100 mg/m2 and chromium oxide of 10 mg/m2, with a chemistry of 0.13% maximum carbon, 0.60% maximum manganese, 0.15% maximum silicon, 0.20% maximum copper, 0.04% maximum phosphorous, 0.05% maximum sulfur, and 0.20% maximum aluminum, with a surface finish of Stone Finish 7C, with a DOS-A oil at an aim level of 2 mg/square meter, with not more than 15 inclusions/foreign matter in 15 feet (4.6 meters) (with inclusions not to exceed 1/32 inch (0.8 mm) in width and 3/64 inch (1.2 mm) in length), with thickness/temper combinations of either 60 pound base box (0.0066 inch) double reduced CADR8 temper in widths of 25.00 inches, 27.00 inches, 27.50 inches, 28.00 inches, 28.25 inches, 28.50 inches, 29.50 inches, 29.75 inches, 30.25 inches, 31.00 inches, 32.75 inches, 33.75 inches, 35.75 inches, 36.25 inches, 39.00 inches, or 43.00 inches, or 85 pound base box (0.0094 inch) single reduced CAT4 temper in widths of 25.00 inches, 27.00 inches, 28.00 inches, 30.00 inches, 33.00 inches, 33.75 inches, 35.75 inches, 36.25 inches, or 43.00 inches, with width tolerance of 1/8 inch, with a thickness tolerance of 0.0005 inch, with a maximum coil weight of 20,000 pounds (9071.0 kg), with a minimum coil weight of 18,000 pounds (8164.8 kg), with a coil inside diameter of 16 inches (40.64 cm) with a steel core, with a coil maximum outside diameter of 59.5 inches (151.13 cm), with a maximum of one weld (identified with a paper flag) per coil, with a surface free of scratches, holes, and rust.
- Electrolytically tin coated steel having differential coating with 1.00 pound/base box equivalent on the heavy side, with varied coating equivalents in the lighter side (detailed below), with a continuous cast steel chemistry of type MR, with a surface finish of type 7B or 7C, with a surface passivation of 0.7 mg/square foot of chromium applied as a cathodic dichromate treatment, with coil form having restricted oil film weights of 0.3-0.4 grams/base box of type DOS-A oil, coil inside diameter ranging from 15.5 to 17 inches, coil outside diameter of a maximum 64 inches, with a maximum coil weight of 25,000 pounds, and with temper/coating/dimension combinations of: (1) CAT4 temper, 1.00/.050 pound/base box coating, 70 pound/base box (0.0077 inch) thickness, and 33.1875 inch ordered width; or (2) CAT5 temper, 1.00/0.50 pound/base box coating, 75 pound/base box (0.0082 inch) thickness, and 34.9375 inch or 34.1875 inch ordered width; or (3) CAT5 temper, 1.00/0.50 pound/base box coating, 107

pound/base box (0.0118 inch) thickness, and 30.5625 inch or 35.5625 inch ordered width; or (4) CADR8 temper, 1.00/0.50 pound/base box coating, 85 pound/base box (0.0093 inch) thickness, and 35.5625 inch ordered width; or (5) CADR8 temper, 1.00/0.25 pound/base box coating, 60 pound/base box (0.0066 inch) thickness, and 35.9375 inch ordered width; or (6) CADR8 temper, 1.00/0.25 pound/base box coating, 70 pound/base box (0.0077 inch) thickness, and 32.9375 inch, 33.125 inch, or 35.1875 inch ordered width.

- Electrolytically tin coated steel having differential coating with 1.00 pound/base box equivalent on the heavy side, with varied coating equivalents on the lighter side (detailed below), with a continuous cast steel chemistry of type MR, with a surface finish of type 7B or 7C, with a surface passivation of 0.5 mg/square foot of chromium applied as a cathodic dichromate treatment, with ultra flat scroll cut sheet form, with CAT5 temper with 1.00/0.10 pound/base box coating, with a lithograph logo printed in a uniform pattern on the 0.10 pound coating side with a clear protective coat, with both sides waxed to a level of 15-20 mg/216 sq. inch, with ordered dimension combinations of (1) 75 pound/base box (0.0082 inch) thickness and 34.9375 inch x 31.748 inch scroll cut dimensions; or (2) 75 pound/base box (0.0082 inch) thickness and 34.1875 inch x 29.076 inch scroll cut dimensions; or (3) 107 pound/base box (0.0118 inch) thickness and 30.5625 inch x 34.125 inch scroll cut dimension.
- Tin-free steel coated with a metallic chromium layer between 100-200 mg/m2 and a chromium oxide layer between 5-30 mg/m2; chemical composition of 0.05% maximum carbon, 0.03% maximum silicon, 0.60% maximum manganese, 0.02% maximum phosphorous, and 0.02% maximum sulfur; magnetic flux density (Br) of 10 kg minimum and a coercive force (Hc) of 3.8 Oe minimum.
- Tin-free steel laminated on one or both sides of the surface with a polyester film, consisting of
  two layers (an amorphous layer and an outer crystal layer), that contains no more than the
  indicated amounts of the following environmental hormones: 1 mg/kg BADGE (BisPhenol A Diglycidyl Ether), 1 mg/kg BFDGE (BisPhenol F Di-glycidyl Ether), and 3 mg/kg BPA (BisPhenol –
  A).

The merchandise subject to this investigation is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS), under HTSUS subheadings 7210.11.0000, 7210.12.0000, 7210.50.0020, 7210.50.0090, 7212.10.0000, and 7212.50.0000 if of non-alloy steel and under HTSUS subheadings 7225.99.0090, and 7226.99.0180 if of alloy steel. Although the subheadings are provided for convenience and customs purposes, the written description of the scope of the investigation is dispositive.

<u>Primary HTS numbers</u>.—For the purposes of reporting data in this questionnaire, consider the "primary" HTS statistical reporting numbers for the importation of tin mill products as: 7210.11.0000, 7210.12.0000, 7210.50.0000, 7210.50.0020, 7210.50.0090, 7212.10.0000, and 7212.50.0000.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing tin mill products (as defined above) into the United States from a foreign manufacturer or through its selling agent.

**Reporting of information**.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information**.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Caitlyn Hendricks (202-205-2058, caitlyn.hendricks@usitc.gov).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (<a href="https://www.usitc.gov/trade\_remedy/question.htm">https://www.usitc.gov/trade\_remedy/question.htm</a>) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1.	Reporting requirements Please report below the actual number of hours required and the cost
	to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, <a href="mailto:import\_injury@usitc.gov">import\_injury@usitc.gov</a>.

I-2a.	<b>Establishments covered</b> Provide the name and address of establishment(s) covered by this
	questionnaire.

I-8a. **FTZ or bonded warehouses**.--Please indicate whether your firm enters tin mill products into, or withdraws such merchandise from, foreign trade zones or bonded warehouses.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

Item	No	Yes	
Foreign trade zones			If yes, please provide the data in part I-8b
Bonded warehouses			•

I-8b. <u>Pre-Customs clearance FTZ and bonded warehousing operations.</u>--Please provide information on your firm's FTZ or bonded warehouse operations relating to tin mill products that are classified as foreign status merchandise in the specified periods.

Admissions into FTZ(s) or bonded warehouse		
Withdrawals into U.S. consumption <sup>1</sup>		
Export shipments <sup>2</sup>		
End-of-period inventories in FTZ(s) or bonded warehouse		
<sup>1</sup> Please confirm that these withdrawals are included as U.S. imports in part II of this questionnaire: Yes No, if "no" please revise prior to submission to the Commission to include withdrawals from your firm's FTZs or bonded warehouses as "U.S. imports" in part II of this questionnaire (and change this checkbox back to Yes). <sup>2</sup> Only include here exports that were not first cleared through U.S. Customs. If admissions were exported from your FTZ or bonded warehouse, but first had to be cleared through U.S. Customs prior to exportation, those data should be reported in part II of this questionnaire. Please confirm you are only including here exports from FTZs and bonded warehouses that never were cleared through Customs: Yes No, if "no" please revise prior to submission to the Commission (and change this checkbox back to Yes).		

I-9. Other trade actions.--To your knowledge, have the products subject to this proceeding been the subject of any other import relief proceedings in the United States or in any other countries?

No	Yes	If yes, Yes-Please specify.

### PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Caitlyn Hendricks (202-205-2058, <u>Caitlyn.Hendricks@usitc.gov</u>). **Supply all data requested on a <u>calendar-year</u> basis**.

II-1.	<u>Contact information</u> Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in part II.					
	Name					
	Title					
	Email					
	Telephone					
	<u> </u>					

II-2a. <u>Changes in operations.</u>--Please indicate whether your firm has experienced any of the following changes in relation to the importation of tin mill products since January 1, 2020.

No	Yes	If yes, supply details as to the time, nature, and significance of such changes and describe reasons for the changes, including any underlying assumptions used.

II-2b. <u>COVID-19 pandemic.</u>— Has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain arrangements, importation, employment, and shipments relating to tin mill products? In your response, please discuss the duration and timing of any such changes as they relate to your firm's operations.

No	If yes, describe these changes including the impact over time on the (a) supply chain, (b) importation and shipments, and (c) employment with respect to tin mill products.

115	Importers'	Questionnaire	- Tin mill	nroducts	(Final)
U.S.	illiborters	Questionnaire	- 1111 111111	DIOGUELS	(Fillal)

II-3.	Arranged imports Has your firm imported or arranged for the importation of tin mill products
	for delivery after June 30, 2023?

"Arranged imports" are imports for which your firm has placed an order with a foreign supplier for subject merchandise, but delivery of those imports is not scheduled to occur until after the date listed above.

No	Yes	
		If yes, fill out the table below.

	Period							
Source	Jul-Sept 2023	Oct-Dec 2023	Jan-Mar 2024	Apr-Jun 2024				
	Quantity (in short tons)							
Canada								
China								
Germany								
Netherlands

Taiwan								
Turkey								
United Kingdom								
All other sources								

II-4.	Reasons for importing if producerIf your firm also produces tin mill products in the United					
	States, please indicate the reasons for importing this product. If your firm's reasons differ by					
	source, please elaborate.					

### **Definitions**

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" —Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

**"Export shipments"**— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>U.S. imports from Canada</u>.—Report your firm's imports and your firm's shipments and inventories of tin mill products imported from Canada by your firm during the specified periods.

#### **PRICE DATA**

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2020 of the following products your firm imported from Canada, China, Germany, South Korea, Netherlands, Taiwan, Turkey, and United Kingdom:
  - **Product 1.--** Single reduced, electrolytic tinplate with base box weights of 75–95 lbs. inclusive and less than 41 inches in width, in coils.
  - **Product 2.--** Double reduced, electrolytic tinplate with base box weights of 55–65 lbs. inclusive and less than 41 inches in width, in coils.
  - **Product 3.--** Single reduced, electrolytic chromium-coated steel with base box weights of 65–80 lbs. inclusive and less than 41 inches in width, in coils.
  - **Product 4.--** Double reduced, electrolytic chromium-coated steel with base box weights of 55–65 lbs. inclusive and less than 41 inches in width, in coils.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2020-June 2023, did your firm import from Canada, China, Germany, Netherlands, South Korea, Taiwan, Turkey, and/or United Kingdom and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data tables as appropriate.
NoSkip to question III-3.

<b>U.S.</b> Importers	' Questionnaire	- Tin mill	products	(Final
-----------------------	-----------------	------------	----------	--------

III-2i. Price data checklist.--Please check that the pricing data in questions III-2(a-h) has been correctly reported.

	Are the price data reported above:	√ if Yes
	In actual dollars (not \$1,000) and actual short tons?	
	Valued f.o.b. U.S. point of shipment (i.e., exclude U.S. inland transportation costs)?	
	Reported net of all discounts, rebates, and returns (deducted from the quarter in which the original sale occurred)?	
	Reported for commercial U.S. shipments only (i.e., exclude internal consumption, transfers, and exports)?	
	Less than or equal to the quantities and values reported in part II for commercial U.S. shipments in each period?	
	Explanation(s) for any boxes not checked:	
III-2j.	Pricing data methodologyPlease describe the method and the kinds of documents/that were used to compile your price data.	records

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

U.S. Importers'	Questionnaire -	Tin mill	products (	(Final)	į
-----------------	-----------------	----------	------------	---------	---

If your responses in the remainder of the questionnaire differ depending on the type of coating for the finished tin mill product, please note so in relevant answers.

III-3. **Price setting.--**How does your firm determine the prices that it charges for sales of tin mill products (*check all that apply*)?

Transaction by transaction	Contracts	Set price lists	Other	If other, describe

III-4. <u>Discount policy</u>.--Please indicate and describe your firm's discount policies (*check all that apply*).

Quantity discounts	Annual total volume discounts	No discount policy	Other	Describe

III-5. <u>Pricing terms.</u>--On what basis are your firm's prices of imported tin mill products from Canada, China, Germany, Netherlands, South Korea, Taiwan, Turkey, and United Kingdom usually quoted (check one)?

Delivered	F.o.b.	If f.o.b., specify point

III-6. <u>Contract versus spot</u>.-- Approximately what shares of your firm's sales of its tin mill products from Canada, China, Germany, Netherlands, South Korea, Taiwan, Turkey, and United Kingdom in 2022 were on the basis of (1) short-term contracts, (2) annual contracts, (3) long-term contracts, and (4) spot sales?

	Type of sale						
ltem	Short-term contracts (multiple deliveries for a contract period of less than 12 months)	Annual contracts (multiple deliveries during a 12-month contract period)	Long-term contracts (multiple deliveries for a contract period of more than 12 months)	<b>Spot sales</b> (for a single delivery)	Total (shoul sum to 100.09	d o	
Share of 2022 sales	%	%	%	%	0.0	%	

U.S. Importers	Questionnaire -	Tin mill	products	(Final)
----------------	-----------------	----------	----------	---------

U.S. Im	porters'	Questic	onnaire	e - <b>Tin mill products (Final)</b> Page 85				
III-15.		_		ave there been any significant changes in the product range, product mix or products since January 1, 2020?				
	No	Υ	es	If yes, please describe.				
III-16.		across		ne tin mill products market subject to business cycles, either during the other than the business cycles described in the previous question? If yes,				
	No	Y	es	If yes, please describe, including any changes since January 1, 2020.				
III-17.		ive to ti	n mill	titionIs the tin mill products market subject to conditions of competition products other than the business cycles described in the previous cribe.				
	No	o Yes		f yes, please describe, including any changes since January 1, 2020.				
III-18.	Supply (a)	Has yo	ur firm en Jan	n refused, declined, or been unable to supply tin mill products at any time uary 1, 2020 and January 18, 2023 when the petition was filed (examples ng customers on allocation or "controlled order entry," declining to accept				
	new customers or renew existing customers, delivering less than the quantity promised being unable to meet timely shipment commitments, impact from changes in operations listed in II-2a, etc.)?							
		No	Yes	If yes, please quantify and describe, including the reason, timing, and duration of the constraint.				
	(b)	•		refused, declined, or been unable to supply tin mill products at any time ition was filed on January 18, 2023?				
		No	Yes	If yes, please quantify and describe, including the reason, timing, and duration of the constraint.				

III-19. <u>Raw materials.</u>—Have tin mill products' raw material prices steadily increased, fluctuated but ended higher, not changed, fluctuated but ended lower, or steadily decreased since January 1, 2020?

Select only one (1) box

Steadily increase	Fluctuate higher	No change	Fluctuate lower	Steadily decrease	Explain, noting how raw material price changes have affected your firm's selling prices for tin mill products.

III-20. <u>Interchangeability.--</u>Are tin mill products produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

A = the products from a specified country-pair are *always* interchangeable

F = the products are *frequently* interchangeable

S = the products are *sometimes* interchangeable

N = the products are *never* interchangeable

0 = *no familiarity* with products from a specified country-pair

Country- pair	Canada	China	Germany	Nether- lands	South Korea	Taiwan	Turkey	United Kingdom	Other countries
United States									
Canada									
China	>	$\times$							
Germany	><	$\times$	X						
Netherlands		$\times$	X	X					
South Korea		$\times$	X	X	><				
Taiwan	><	$\times$	$\times$	X	><	><			
Turkey	><	$\times$	$\langle$	X	$\times$	$\times$	$\times$		
United Kingdom					X				-1.1.

For any country-pair producing tin mill products that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude the interchangeable use of tin mill products produced in the countries:

III-21. <u>Factors other than price</u>.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between tin mill products produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country- pair	Canada	China	Germany	Nether- lands	South Korea	Taiwan	Turkey	United Kingdom	Other countries
United States									
Canada	><								
China		$\times$							
Germany	>	$\times$	$\setminus$						
Netherlands		$\times$	$\bigvee$	$\langle$					
South Korea	><	$\times$	$\backslash$	X	X				
Taiwan	><	$\times$	$\bigvee$	$\langle$	X	X			
Turkey	><	$\times$	$\bigvee$	$\times$	X	X	$\times$		
United Kingdom		X		$\times$	$\times$	$\times$			

For any country-pair for which factors other than price are *always* or *frequently* a significant factor in your firm's sales of tin mill products, identify the country-pair and the relevant factors other than price, and report the advantages or disadvantages imparted by such factors:

U.S. Im	porters' Que	stionnaire -	Tin mi	ll products (Final)		Page 8				
III-22.	Role of section 301 tariffs Did the tariffs on Chinese-origin products under section 301 changes in these tariffs, have an impact on the tin mill products market in the United Staincluding any effects on tin mill products cost, price, supply, and/or demand, since Janua 2020?									
		Yes		No	Don't know					
		If yes, please describe the impact on cost, price, supply, and/or demand, and include the timing of such impacts.								
III-23.	Impact of section 232 measures.—Did the imposition of measures (i.e., tariffs, quotas, et exclusion from those measures, on imported steel/aluminum products under section 232 an impact on the tin mill products market in the United States since January 1, 2020?									
	Yes			No	Don't know					
III-24.	If yes, please describe the impact on cost, price, supply, and/or demand, and include the timing of such impacts. Be sure to note  Section 232 exclusions.—Has your firm requested and/or been granted exclusion from section									
		232 tariffs on tin mill products originating from Canada, China, Germany, the Netherlands, Sou Korea, Taiwan, Turkey, and/or the United Kingdom since January 1, 2020?								
	For which countries' tin mill products did you receive exclusion  List these countries, products, reasons for the request(s) and percentage of your total 2022 tin mill products imports that the exclusions accounted for.									

III-25. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for tin mill products since January 1, 2020. Indicate the share of the quantity of your firm's U.S. shipments of tin mill products that each of these customers accounted for in 2022.

III-2	f e	Other explanationsIf your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.								

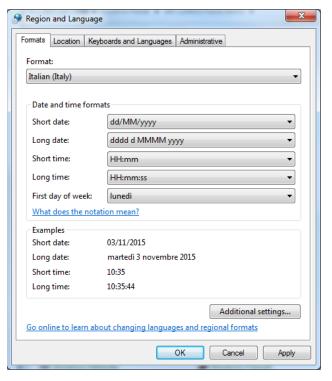

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

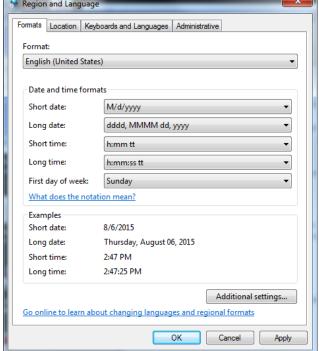

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.

## **HOW TO FILE YOUR QUESTIONNAIRE RESPONSE**

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at: https://ids.usitc.gov/case/8105/investigation/8362.

**Please do not attempt to modify the format or permissions of the questionnaire document**. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: <a href="https://dropbox.usitc.gov/oinv/">https://dropbox.usitc.gov/oinv/</a> Pin: TINN

• E-mail.—E-mail the MS Word questionnaire to <a href="Caitlyn.Hendricks@usitc.gov">Caitlyn.Hendricks@usitc.gov</a>; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

**If your firm** did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7).
