

Dear ENDURE Program Directors and Administrators,

REGISTRATION FOR THE 2023 ENDURE ANNUAL MEETING IS NOW OPEN! **[[website URL TBD](#)]**

Everyone attending the ENDURE annual meeting (PIs, students, administrators, etc.) must register!

Please **forward this email message to all current students in your programs**, as NIH does not have a complete email list for your trainees. In order to generate an electronic copy of the booklet, registration and abstract submission will not be accepted after **COB on September 30, 2023**. Once registration is submitted, you will receive an email confirmation from no-reply@forms.roseliassociates.com.

Please ensure that your students' mentors have proofread and approved the final abstract submission. The abstracts are an important networking tool for connecting the students to potential graduate programs and should be a positive reflection of both the student and your program.

Submitting the Research Abstract:

- **All current ENDURE students will be able to submit their research abstract along with their registration.** If the abstract is not ready to submit, the student can save their registration form and return later to upload their abstract.
- Abstracts will be shared with all ENDURE 2023 meeting participants. For reference, see the 2022 ENDURE Program Booklet:
https://neuroscienceblueprint.nih.gov/sites/default/files/documents/ENDURE-2022_-Program-book_11.2_508C.pdf

*Please remember that registration and housing for the SfN Annual Meeting are handled only via the SfN website.

Contact me or our meeting planner, Ella Blue (ella.blue@roseliassociates.com), if you have additional questions about the meeting program or logistics.

Best,

Marguerite Matthews, PhD
