Organization: Interstate Grain Corporation

General Comment

Just a couple of comments on experience with the new platform.

When initially attempting to create a new entry via DATA ENTRY/WEEKLY DATA ENTRY, having a Search/Load and Submit button directly under the fields but not a New Entry button was a bit confusing. It was not clear that the (+) symbol further down the page is what you need to press to create a new entry.

Is there an option to print a pdf of the entry that you made similar to the current system? Can there be a print/pdf option next to the edit and delete buttons for each entry?
