When Congress passed the FAFSA Simplification Act in 2020 they specifically authorized that small business and family farm value would be collected on the FAFSA and used to calculate the SAI. The draft 2024-25 FAFSA in questions 22 and 40 only asks for investment farm value. I believe this is contrary to Congressional intent. Additionally, it will be unfair to those who do provide family farm value vs. those that do not. Therefore, I encourage the word investment be removed from questions 22 and 40.
