U.S. PRODUCERS' QUESTIONNAIRE

FINE DENIER POLYESTER STAPLE FIBER FROM CHINA, INDIA, SOUTH KOREA, AND TAIWAN

This questionnaire must be received by the Commission by November 9, 2023

See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its review of the countervailing and antidumping duty orders concerning fine denier polyester staple fiber ("fine denier PSF") from China, India, South Korea, and Taiwan (Inv. No. 701-TA-579-580 and 731-TA-1369-1372 (Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background.--On March 16, 2018, the Department of Commerce ("Commerce") issued countervailing duty orders on imports of fine denier PSF from China and India, and on July 20, 2018, Commerce issued antidumping duty orders on imports of fine denier PSF from China, India, South Korea, and Taiwan. On February 1, 2023, the Commission instituted reviews pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make affirmative determinations, the orders will remain in place. If either the Commission or Commerce makes negative determinations, Commerce will revoke the orders. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/reports/active_import_injury_questionnaires.

<u>Fine denier PSF</u> covered by this proceeding is not carded or combed, measuring less than 3.3 decitex (3 denier) in diameter. The scope covers all fine denier PSF, whether coated or uncoated.

The following products are excluded from the scope:

- (1) PSF equal to or greater than 3.3 decitex (more than 3 denier, inclusive) currently classifiable under HTSUS statistical reporting numbers 5503.20.0045 and 5503.20.0065.
- (2) Low-melt PSF defined as a bicomponent polyester fiber having a polyester fiber component that melts at a lower temperature than the other polyester fiber component, which is currently classifiable under HTSUS statistical reporting number 5503.20.0015.

Fine denier PSF is currently imported under HTSUS statistical reporting number 5503.20.0025. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

<u>Reporting of information</u>.--If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates. If your firm is completing more than one questionnaire in connection with this proceeding (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions in the questionnaires.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all of your files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the

Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1. Reporting requirements.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import_injury@usitc.gov.

I-2a. <u>Establishments covered</u>.--Provide the city, state, zip code, and brief description of each establishment covered by this questionnaire. Firms operating more than one establishment should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of fine denier PSF, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

Establishments Covered ¹	City, State	Zip (5 digit)	Description

PART II.--TRADE AND RELATED INFORMATION

Telephone

Further information on this part of the questionnaire can be obtained from Kristina Lara (202-205-3386, Kristina.Lara@usitc.gov). Supply all data requested on a calendar-year basis.

II-1.		nationPlease identify the responsible aff may contact that individual regarding	individual and the manner by which ng the confidential information submitted
	Name		
	Title		
	Email		

II-2a. <u>Changes in operations.</u>—Please indicate whether your firm has experienced any of the following changes in relation to the production of fine denier PSF since January 1, 2017.

Check	as many as appropriate.	If checked, please describe the nature, timing / duration, and impact on operations of any such reported changes as well as the business reasons for them; leave completely blank if not applicable
	Plant openings	
	Plant closings	
	Prolonged shutdowns	
	Production curtailments	
	Relocations	
	Expansions	
	Acquisitions	
	Consolidations	
	Weather-related or force majeure events	
	Other (e.g., revised labor agreements, technology)	

II-2b.	COVID-19 pandemic. —Has the COVID-19 pandemic or have any government actions taken to
	contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain
	arrangements, production, employment, and shipments relating to fine denier PSF? In your
	response, please discuss the duration and timing of any such changes as they relate to your
	firm's operations.

No	Yes	If yes, describe these changes including the impact over time on the (a) supply chain, (b) production and shipments, and (c) employment with respect to fine denier PSF.

II-2c. <u>Anticipated changes in operations.</u>—Does your firm anticipate any changes in the character of its operations or organization relating to the production of fine denier PSF in the future?

No	If yes, supply details as to the likely timing, nature, and significance of such anticipated changes and describe the underlying assumptions and business reasons for these anticipated changes.

II-3a. **Production using same machinery.--**Please report your firm's production of products using the same equipment, machinery, or employees as used to produce fine denier PSF, and the combined capacity (both installed and practical capacity) on this shared equipment, machinery, or employees in the periods indicated.

"Installed overall capacity" – The level of production that your establishment(s) could have attained, assuming your firm's optimal product mix, and based solely on existing capital investments, i.e., machinery and equipment that is in place and ready to operate. This capacity measure does <u>not</u> take into account other constraints to production such as existing workforce constraints, availability of raw materials, or downtime for maintenance, repair, and clean-up. This capacity measure is sometimes referred to as "nameplate" or "theoretical" capacity.

"Practical overall capacity" – The level of production that your establishment(s) could reasonably have expected to attain, taking into account your firm's actual product mix over the period. This capacity measure is based on not only existing capital investments, i.e., machinery and equipment that is in place and ready to operate; but also non-capital investment constraints, such as (1) normal operating conditions, including normal downtime for maintenance, repair, and cleanup; (2) your firm's existing in place and readily available labor force; (3) availability of material inputs; and (4) any other constraints that may have limited your firm's ability to produce the reported products. Importantly, this capacity measure is the maximum "practical" production your firm could have achieved without hiring new personnel or expanding the number of shifts operated in the period.

"Practical "fine denier PSF capacity" – The level of production of fine denier PSF that your establishment(s) could reasonably have expected to attain. The same assumptions apply to this capacity measure as for practical overall capacity, but only includes the portion of practical overall capacity allocated to the production of fine denier PSF based on the actual product mix experienced over the period.

Takes into account	Installed overall capacity	Practical overall capacity	Practical fine denier PSF capacity
Existing capital investments	Yes	Yes	Yes
Product mix	Yes	Yes	Yes
Normal downtime, maintenance, repair and clean-up	No	Yes	Yes
Existing labor force	No	Yes	Yes
Availability of material inputs	No	Yes	Yes
Actual number of shifts and hours operated	No	Yes	Yes
Limited to fine denier PSF	No	No	Yes

"**Production**" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

II-3a. Production using same machinery.—Continued

		Quantity	(in 1,000 pc	ounds)

Capacity measures: Installed overall capacity ¹									
Practical overall capacity ¹²									
Practical fine denier PSF capacity ^{3 4}	0	0	0	0	0	0	0	0	
Production of: Fine denier PSF ⁴	0	0	0	0	0	0	0	0	
Other products ⁵									
Total production using same machinery or workers	0	0	0	0	0	0	0	0	

¹ Data reported for both "installed overall" and "practical overall" capacity should each individually be greater than data reported for total production (last line). Additionally, data reported for "installed overall" capacity should be greater than "practical overall" capacity in every period.

² Please provide details in your response to the question on capacity constraints in question II-3d below that explain the differences reported between "installed" overall capacity and "practical" overall capacity.

³ Data for this indicator will populate here once reported below in question II-6.

⁴ Data reported for practical fine denier PSF capacity should be greater than the data reported for production of fine denier PSF in each period, if not revise prior to submission to the Commission. Additionally, if your firm reports the production of no other products on the same machinery and using the same workers as fine denier PSF then "practical overall" and "practical fine denier PSF" capacity measures should be equal to each other.

⁵ Please identify these products: _____.

	(a) I	s your firm	able to switch production (capacity) between fine den me equipment and/or labor?	nier PSF and other products			
	No	Yes	If yes—(i.e., have produced other products or are all products) Please identify other actual or potential p	-			
	(e.g., time,	ribe the factors that affect your firm's ability to shift cacost, relative price change, etc.), and the degree to whe such shifts.				

II-5. <u>Capacity checklist.</u>--Please check that the capacity numbers reported in question II-3a follow the Commission's relevant definitions for capacity.

Item	√ if Yes
Are all three capacity measures reported based on <u>currently installed</u> <u>machinery and equipment</u> (i.e., the reported capacity level would not require additional capital investments in order to achieve)?	
Are practical overall capacity and practical fine denier PSF capacity measures reported based on <u>existing labor force</u> (i.e., the reported capacity level would not require hiring additional production related workers or adding shifts)?	
Are practical overall capacity and practical fine denier PSF capacity measures based on <i>the actual <u>availability of material inputs</u>?</i>	
Do both practical overall capacity and practical fine denier PSF capacity measures account for <u>normal downtime</u> , <u>maintenance</u> , <u>repair and cleanup</u> activities?	
Does the difference between practical overall capacity and practical fine denier PSF capacity equal the portion of practical overall capacity that is dedicated to the production of out-of-scope products?	

Note: If your firm is not able to answer "yes" to any of the above criteria as it relates to your firm's reported capacity levels, please revise your capacity numbers to be in conformance with the appropriate definition prior to submission to the Commission.

II-6. **Shipments and inventory data.**--Report you firm's uses (shipment or storage) of domestically produced fine denier PSF during the specified periods.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"Commercial U.S. shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-3a.

² Internal consumption and transfers to related firms must be valued at fair market value. If your firm uses a different basis for valuing these transactions in your records, please specify that basis (e.g., cost, cost plus, etc.): _____. However, the data provided above in this table should be based on fair market value.

³ Identify your firm's principal export markets:

II-6. Production, shipment, and inventory data.--Continued

<u>RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.</u>—Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

Non-siliconized ¹ Quantity	0				
Value	0				

¹ Please ensure that the "non-siliconized" quantity and value lines do not report a negative number, which would occur if your firm reported more "siliconized" fine denier PSF quantity (in line AB) than it reported as overall U.S. shipments quantity (i.e., lines D, F, and H), or if your firm reported more "siliconized" fine denier PSF value (line AC) than it reported as overall U.S. shipment value (i.e., lines E, G, and I) in question II-6.

II-12. <u>U.S. shipments by denier size</u>.--Report your firm's U.S. shipments of fine denier PSF (i.e., inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) by denier size in calendar year 2022.

	Calendar year 2022
ltem	Quantity (1,000 pounds) and Value (in \$1,000)
U.S. shipments.— Micro denier (i.e, <=1.0 denier) Quantity (AD)	
Value (AE)	
Other fine denier sizes (i.e., >1 denier but < 3.0 denier) ¹ Quantity	0
Value	0

¹ Please ensure that the "other fine denier sizes" quantity and value lines do not report a negative number, which would occur if your firm reported more "micro" fine denier PSF quantity (in line AD) than it reported as overall U.S. shipments quantity (i.e., lines D, F, and H), or if your firm reported more "micro" fine denier PSF value (line AE) than it reported as overall U.S. shipment value (i.e., lines E, G, and I) in question II-6.

II-13. <u>U.S. shipments of biodegradable fine denier PSF</u>.--Report your firm's U.S. shipments (i.e., inclusive of commercial U.S. shipments, internal consumption, and transfers to related firms) of biodegradable fine denier PSF in calendar year 2022.

"Biodegradable" - Fine denier PSF that can biodegrade by at least 50% within 400 days.

	Calendar year 2022
Item	Quantity (in 1,000 pounds) and Value (in \$1,000)
U.S. shipments.—	
Biodegradable	
Quantity (AF)	
Value (AG)	
Non-biodegradable ¹	
Quantity	0
Value	0

¹ Please ensure that the "biodegradable" quantity and value lines do not report a negative number, which would occur if your firm reported more "biodegradable" fine denier PSF quantity (in line AF) than it reported as overall U.S. shipments quantity (i.e., lines D, F, and H), or if your firm reported more "biodegradable" fine denier PSF value (line AG) than it reported as overall U.S. shipment value (i.e., lines E, G, and I) in question II-6.

II-14. <u>Employment data</u>.--Report your firm's employment-related data related to the production of fine denier PSF and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12.

For the January to September periods, calculate similarly and divide by 9. If your firm had the same number of PRWs in all calendar year and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-June (Q1+Q2), or Jan-Sept (Q1+Q2+Q3)."

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

	Calendar year					January- September		
Item	2017	2018	2019	2020	2021	2022	2022	2023
Employment data: Average number of PRWs (number) (O)								
Hours worked by PRWs (1,000 hours) (P)								
Wages paid to PRWs (\$1,000) (Q)								

Explanation of trends:			

II-15.	<u>Transfers to related firms.</u> If your firm reported transfers to related firms in question II-4, please identify the firm(s) and indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.

II-16. <u>Purchases</u>.--Has your firm purchased fine denier PSF produced in the United States or in other countries since January 1, 2017? (Do not include imports for which your firm was the importer of record. These should be reported in an importer questionnaire).

"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has directly imported the product.

"Import" —A transaction to buy from a foreign supplier where your firm is the importer of record.

"South Korea, subject" – Purchases of imports from all South Korean producers/exporters <u>other</u> <u>than</u> Toray Chemical Korea Inc. ("Toray")

"South Korea, nonsubject" – Purchases of imports from South Korean producer Toray.

"Taiwan, subject" – Purchases of imports from all Taiwanese producers/exporters <u>other than</u> Tainan Spinning Co. Ltd. ("Tainan")

"Taiwan, nonsubject" – Purchases of imports from Taiwanese producer Tainan Spinning Co. Ltd. ("Tainan")

No	If yes Report such purchases in the table on the next page and explain the reasons for your firms' purchases:

II-16. Purchases.—Continued.

Note: If your firm served as the importer of record for any purchases from foreign suppliers, either for your own account or as a service for another entity, those purchases are to be considered "imports" not "purchases" and **should not** be included in the table below.

³ Please list the name of the firm(s) from which your firm purchased this product: ______.

II-17. Purchases of imports from subject sources.--If your firm reported purchases from U.S. importers of fine denier PSF from China, India, South Korea, or Taiwan at any time since January 1, 2017, report those purchases by the individual importer of record and subject source.

NOTE: Do not report here any imports of fine denier PSF from South Korean exporter/producer Toray Chemical Korea Inc. or Taiwanese exporter/producer Tainan Spinning Co., Ltd., as fine denier PSF imports from these two companies are not subject to the orders.

	If the methods used differ by input, please describe:					
III-7b.	from relat	nputs from related suppliers valuation method.—Please confirm that the inputs purchased rom related suppliers, as identified in III-6, were reported in III-9a (financial results on fine lenier PSF) in a manner consistent with the firm's accounting books and records.				
	Yes	If no—Provide an explanation and the valuation basis used for these in question III-9a.				

III-8. <u>Allocation basis.</u>— Briefly describe the assignment/allocation bases used by your firm to assign the costs and expenses listed below for fine denier PSF in the normal course of business and in the financial results reported in question III-9a (e.g., actual costs, standard costs, percentage of COGS, percentage of sales, etc.).

	Assignment/allocation bases used for fine denier PSF—				
Cost/expense	In the normal course of business	In the financial results at III-9a			
Raw materials					
Direct labor					
Other factory costs					
SG&A expenses					
Interest expense					
Other income/expenses					

III-9a. Operations on fine denier PSF.—Report the revenue and related cost information requested below on the fine denier PSF operations of your firm's U.S. establishment(s). Include only sales (whether domestic or exports) and costs related to your U.S. manufacturing operations.

Net sales—Report all commercial sales, internal consumption, and transfers to related firms, whether these are domestic sales or exports. Report net sales values less discounts, returns, allowances, and prepaid freight, in U.S. dollars, f.o.b. your point of shipment. The freight costs associated with delivering the product to your customer should not be included.

Note: If the financial data are reported on a calendar-year basis, the total net sales quantities and values should match the total shipment quantities and values reported in Part II of this questionnaire.

Internal consumption—Product consumed internally by your firm. Report internal consumption at fair market value even if this is not how these transactions are valued in your own books and records. This would commonly be estimated based on the company's commercial sales of similar product or market knowledge.

Transfers to related firms—Sales made to related firms. Report transfers to related firms at fair market value even if this is not how these transactions are valued in your own books and records. This would commonly be estimated based on the company's commercial sales of similar product or market knowledge.

Costs and expenses—Include costs and expenses associated with all reported net sales (i.e., for both domestic and export commercial sales, internal consumption, and transfers to related firms). If any freight costs were removed from net sales values, ensure the associated costs are removed from the applicable cost/expense line.

Inputs from related suppliers—Any inputs purchased from related suppliers should be reported in a manner consistent with your firm's accounting books and records.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the financial data, as Commission staff may contact your firm regarding questions on the financial data. The Commission may also request that your company submit copies of the supporting documents/records (financial statements, including internal profit-and-loss statements for the division or product group that includes fine denier PSF, as well as specific statements and worksheets) used to compile these data.

III-9b.	<u>Financial data reconciliation</u> .—Certain line items from question III-9a, including total net sales
	quantities and values, total COGS, gross profit (or loss), operating profit (or loss), and net
	income (or loss), have been calculated based on the data submitted for other line items. Are the
	data in these calculated line items correct according to your firm's financial records ignoring
	non-material differences that may arise due to rounding?

		If no If the calculated line items do not show the correct data, please double check the feeder data for data entry errors and revise.
		Also, check signs accorded to the post operating income line items. The two expense line items should report positive numbers (i.e., expenses are positive, and incomes or reversals are negative in these lines – instances of the latter should be rare in these lines). The income line item should also, in most instances, be a positive number (i.e., income is positive, and expenses or reversals are negative in this line).
Yes	No	If, after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated line items persist, please identify and discuss the differences in the space below.

III-9c. <u>Depreciation expense</u>.—Please report the amount of depreciation expense that is included within the reported financial results at question III-9a.

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and
	records of the company.—If non-recurring items were reported in question III-10 above, please
	identify where your company recorded these items in your accounting books and records in the normal course of business, just as responses to question III-10 identify the specific line items in
	question III-9a where these items are reported.

1		

III-12a. <u>Asset values</u>.—Report the total assets (i.e., <u>both current and long-term assets</u>) associated with the production, warehousing, and sale of fine denier PSF. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for fine denier PSF in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations used in question III-9a.

Note: Total assets should reflect the <u>net amount of assets</u> (i.e., after any accumulated depreciation and allowances deducted) and should be <u>allocated to fine denier PSF</u> if these assets are also related to other products.

Value (<i>in \$1,000</i>)								
		Years						
Item	2017	2018	2019	2020	2021	2022		
Total assets (net)								

•	<u>Description of asset values</u> .—Please provide explanations for any substantial changes in total asset value during the period; e.g., due to write-offs, major purchases, and revaluations. Also describe the main asset categories (both current and long-term) included in the above response.

III-13a. <u>Capital expenditures and research and development ("R&D") expenses</u>.—Report your firm's capital expenditures and research and development expenses for fine denier PSF.

Value (in \$1,000)									
	Years Ja							January-September	
Item	2017	2018	2019	2020	2021	2022	2022	2023	
Capital expenditures									
R&D expenses									

III-13b.	<u>Description of reported capital expenditures</u> .—Please describe the nature, focus, and significance of your firm's reported capital expenditures. If no capital expenditure data were reported, please explain the reason.
III-13c.	<u>Description of reported R&D expenses</u> .—Please describe the nature, focus, and significance of your firm's reported R&D expenses.

III-14a. <u>Data consistency and reconciliation</u>.—The quantities and values of total net sales reported in question III-9a should reconcile with the total shipments reported in question II-6 (including export shipments) for the annual-year periods as long as they are reported on the same calendar-year basis. The interim-period data should reconcile whether the financial data are on a calendar- or fiscal-year basis.

If the calculated fields below return values other than zero (i.e., "0") this indicates the total net sales quantities and values do not match the total shipments quantities and values.

	Years							January-September	
Reconciliation	2017	2018	2019	2020	2021	2022	2022	2023	
Quantity: Trade data from question II-6 (lines D, F, H, and J) less financial total net sales quantity data from question III-9a, = zero ("0").	0	0	0	0	0	0	0	0	
Value: Trade data from question II-6 (lines E, G, I, and K) less financial total net sales value data from question III-9a, = zero ("0").	0	0	0	0	0	0	0	0	

	Is the financial data in question III-9a reported on a calendar-year basis?										
	Yes—Complete question III-14b. No— Complete question III-14c										
III-14b. Data consistency and reconciliation (calendar-year based financial data).—Do the data in question III-9a reconcile with the data in question II-6 (i.e., the calculated fields are returning zeros in the table above) for all periods?											
	Yes	No	If no, please explain.								
III-14c. Data consistency and reconciliation (non-calendar-year based financial data).—Do the data in question III-9a reconcile with the data in question II-6 (i.e., the calculated fields are returning zeros) for the January-September periods?											
	Yes No If no, please explain.										

III-15.	Effects on financial performance of COVID-19.—Has the COVID-19 pandemic, or any
	government actions taken to contain the spread of the COVID-19 virus, affected the financial
	performance of your firm's operations on fine denier PSF as reported in question III-9a? In your
	response, please include the duration and timing of any impacts as they relate to your firm's
	financial performance.

No	Yes	If yes, please describe these effects.

III-16.	Other explanations.—If your firm would like to further explain a response to a question in Part III for which a narrative box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.

PART IV.--PRICING AND MARKET FACTORS

Further information on this part of the questionnaire can be obtained from Eric Sguazzin (202-205-3463, eric.sguazzin@usitc.gov).

IV-1. <u>Contact information.</u>--Please identify the responsible individual and the manner by which Commission staff may contact that individual regarding the confidential information submitted in Part IV.

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers of the following products produced by your firm.
 - <u>Product 1</u>.--Virgin polyester staple fiber, excluding biodegradable, siliconized and black or other colored fiber, measuring 0.85 denier to less than 1.15 denier, solid and round cross section, dry, 32-38mm cut length, with tenacity measuring above 5.0 grams per denier.
 - <u>Product 2</u>.--Virgin polyester staple fiber, excluding biodegradable, siliconized and black or other colored fiber, measuring 1.15 denier through and including 1.8 denier, solid and round cross section, dry, 32-38mm cut length, with tenacity measuring above 5.0 grams per denier.
 - **Product 3.--**Virgin polyester staple fiber, excluding biodegradable, siliconized and black or other colored fiber, 1.15 denier through and including 1.8 denier, solid and round cross section, dry, 32-38mm cut length, with tenacity measuring 3.0-5.0 grams per denier.
 - <u>Product 4.</u>--Virgin polyester staple fiber, excluding biodegradable, siliconized and black or other colored fiber, measuring greater than 1.8 denier and less than 3.0 denier, solid and round cross section, dry, 32-38mm cut length, with tenacity measuring above 5.0 grams per denier.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

(a)	During January 2017-September 2023, did your firm produce and sell to unrelated U.S.
	customers any of the above listed products (or any products that were competitive with
	these products)?

YesPlease complete the following pricing data table as appropriate.
NoSkip to question IV-3.

[&]quot;Biodegradable" fine denier PSF can degrade by at least 50% within 400 days.

IV-2b. Price data.--Report below the quarterly price data1 for pricing products2 produced and sold by your firm.

Report data in actual pounds (not 1,000s) and actual dollars (not 1,000s).

IV-16. <u>Product changes.</u>—Have there been any significant changes in the product range, product mix, or marketing of fine denier PSF since January 1, 2017 or do you anticipate any future changes?

No	If yes, please describe, noting when these changes occurred or are expected to occur.

IV-17.	Business cyclesIs the fine denier PSF market subject to business cycles, either during the year
	or across years? If yes, describe.

No	Yes	If yes, please describe, including any changes since January 1, 2017.

IV-18. Conditions of competition.--Is the fine denier PSF market subject to conditions of competition distinctive to fine denier PSF other than the business cycles described in the previous question? If yes, describe.

No	Yes	If yes, please describe, including any changes since January 1, 2017.

IV-19. Supply constraints.--Has your firm refused, declined, or been unable to supply fine denier PSF since January 1, 2017 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, being unable to meet timely shipment commitments, etc.)? Please indicate if your firm has been unable to provide any specialty fine denier PSF products (e.g., antimony free PSF, cobalt free PSF, cationic PSF, and atmospherically dyable PSF).

No	Yes	If yes, please describe.

I١	/-20.	Raw	materials	
----	-------	-----	-----------	--

(a) Have fine denier PSF raw material prices steadily increased, fluctuated but ended higher, not changed, fluctuated but ended lower, or steadily decreased since January 1, 2017? Please indicate the trend, if known, for each of the following raw materials, including any raw material supply disruptions since January 1, 2017:

Select one box per row.

Price changes for raw materials	Do not know	Steadily increase	Fluctuate up	No change	Fluctuate down	Steadily decrease	Explain, noting how raw material price changes have affected your firm's selling prices for fine denier PSF.

Post-consumer recycled (PCR) bottle flake							
Clean bottle flake							

	. <u>Price comparisons</u> Are you aware of prices of fine denier PSF in non-U.S. markets? If yes, please compare market prices of fine denier PSF in U.S. and non-U.S. markets. Provide information as to time periods and regions for any price comparisons and note the sources for your market knowledge.						
	No	Yes	If yes, please describe.				
IV-22.	IV-22. Export constraintsDescribe how easily your firm can shift its sales of fine denier PSF be the U.S. market and alternative export markets. In your discussion, please describe any contracts, other sales arrangements, or other constraints that would prevent or retard your from shifting fine denier PSF between the U.S. and alternative export markets within a 12 month period.						
	from shifti	ng fine de	,				

IV-23. <u>Barriers to trade</u>.--Are your firm's exports of fine denier PSF subject to any tariff or non-tariff barriers to trade in other countries?

No	Yes	If yes, please list the countries and describe any such barriers and any significant changes in such barriers that have occurred since January 1, 2017, or that are expected to occur in the future.

IV-24. <u>Interchangeability</u>.—How often is fine denier PSF produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = no familiarity with products from a specified country-pair

Country-pair	China	India	South Korea, subject	Taiwan, subject	All other sources
United States					
China					
India					
South Korea, subject					
Taiwan, subject					

For any country-pair producing fine denier PSF that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude the interchangeable use of fine denier PSF produced in the countries:

IV-25. **Factors other than price.**—How often are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between fine denier PSF produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	China	India	South Korea, subject	Taiwan, subject	All other sources
United States					
China					
India					
South Korea, subject					
Taiwan, subject					

For any country-pair for which factors other than price are *always* or *frequently* a significant factor in your firm's sales of fine denier PSF, identify the country-pair the relevant factors other than price, and report the advantages or disadvantages imparted by such factors:

U.S. Producers' Questionnaire - Fine Denier PSF (Review	U.S.	Producers'	Questionnaire	- Fine Den	ier PSF (Review
---	------	------------	---------------	------------	-----------	---------------

IV-26.	Role of section 301 tariffs Did the tariffs on Chinese-origin products under section 301, or
	changes in these tariffs, have an impact on the fine denier PSF market in the United States,
	including any effects on fine denier PSF cost, price, supply, and/or demand, since January 1, 2017?

Yes— Please indicate the impact in the table below.	No— Skip to next question.	Don't know— Skip to next question.

Select one box per r		Fluctuate up	No change	Fluctuate down	Steadi decrea	- 1
Supply of U.S produced fine denier PSF						
Supply of fine denier PSF imported from China						
Supply of fine denier PSF imported from other countries						
Prices for fine denier PSF						
Overall U.S. demand for fine denier PSF						
Raw material costs for fine denier PSF						
IV-27. Other expla	ot provide	e a narrativ	e respon	se box, ple	ase note	in a response to a question in Part the question number and the s space to highlight any issues your

IV-27.	Other explanationsIf your firm would like to further explain a response to a question in Part
	IV that did not provide a narrative response box, please note the question number and the
	explanation in the space provided below. Please also use this space to highlight any issues your
	firm had in providing the data in this section.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://usitc.gov/reports/active_import_injury_questionnaires.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: FDPSF

• E-mail.—E-mail the MS Word questionnaire to Kristina.Lara@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm does not produce this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
