Screen Shots for OMB Approval – September 21, 2023

Train at NCI

The National Cancer Institute (NCI) is the federal government's principal agency for cancer research and training.

Interested in joining our mission? Train at NCI provides prospective applicants an overview of a variety of NCI training programs that will appeal to researchers at different stages of their careers.

Why Train at NCI?

NCI conducts research across the cancer care continuum to advance scientific knowledge and help people live longer, healthier lives. At our Bethesda, Shady Grove, and Frederick campuses, you will find leading experts in basic, clinical, translational, or genomic and population-based research. In addition to working side-by-side with world-class scientists, you will find extensive professional career and development opportunities, fellow-led groups that build a sense of community, and access to additional training, courses, and workshops to facilitate your project and career goals.

Werner H. Kerstin Program

Cancer Research Postbac Program

Postdoc Recruitment Event

NCI Cancer Prevention Fellowship Program

NIH Graduate Partnerships Program

Interagency Oncology Task Force Fellowship

NCI Communications Fellowship

NCI Technology Transfer Fellowship

How can I obtain an internship or fellowship at the NCI?

Contact investigator directly

This is the most common way, but the success rate is variable.

Submit your CV/resume to [NIH database](#) or [NCI database](#)

Your information becomes available to investigators seeking to fill positions. However, the system is currently unable to match you to an investigator or available position. To increase your chances of success, you should also identify specific investigators that match your research interests and inquire about position availability.

Open Fellowship Postings

NCI Divisions, Offices, Centers often post current vacancy announcements. Opportunities are posted on the [CCR](#), [DCEG](#), [DCCPS](#), and [DCP](#) websites.

Apply to a specific program within a specific timeline

You can use the [Find a Training Program](#) option to identify the best fit for you. Many of these programs are cohort-based and designed to enhance recruitment and retention within the biomedical workforce. All provide a mentored training experience, often in conjunction with additional career and professional resources.

No matter how you obtain your fellowship, you will find support within the various NCI divisions, offices, and centers to help you achieve your career goals. We hope you consider the NCI as you are planning your training. To learn more about the available resources for trainees, you can visit <https://cancer.gov/cct>.

If you choose to apply to a program using one of the applications hosted at Train at NCI, please be aware that this information collection has been approved by the Office of Management and Budget.

OMB No. 0925-0761
Expiration Date 07/31/2025

Collection of this information is authorized by The Public Health Service Act, Section 411 (42 USC 285a). Rights of study participants are protected by The Privacy Act of 1974. Participation is voluntary, and there are no penalties for not participating or withdrawing from the study at any time. Refusal to participate will not affect your benefits in any way. The information collected in this study will be kept private to the extent provided by law. Names and other identifiers will not appear in any report of the study. Information provided will be combined for all study participants and reported as summaries. You are being asked to complete this instrument so that we can evaluate the effectiveness of it.

Public reporting burden for this collection of information is estimated at 60 minutes per response including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0761). Do not return the completed form to this address.

Research Areas

 **Cancer Biology Research**

 Cancer Genomics Research

 Research on Causes of Cancer

 Cancer Detection and Diagnosis Research

 Cancer Prevention Research

 Cancer Treatment Research

 Public Health Research and Cancer

 Cancer Health Disparities Research

 Research on Childhood Cancers

 Global Cancer Research

Cancer Biology Research

The broad base of knowledge created by studying the differences between normal cells and cancer cells has been critical to progress against the disease.

[Read more on Cancer.gov >](#)

Divisions

Divisions with training programs on Train at NCI

Center for Cancer Research

CCR houses a productive community of NCI intramural basic researchers, clinicians, and translational scientists who integrate basic and clinical research discovery to develop novel therapeutic interventions which better treat adults and children with cancer or HIV.

Division of Cancer Epidemiology and Genetics

DCEG is the world's most comprehensive cancer epidemiology research group. Its renowned epidemiologists, geneticists, and biostatisticians conduct population and multidisciplinary research to discover the genetic and environmental determinants of cancer and new approaches to cancer prevention.

Other National Cancer Institute Divisions

NCI is unique in that several of our extramural divisions have training programs that provide a limited number of opportunities in science administration, cancer control, global health, and bioinformatics, including [DCCPS](#), which aims to reduce risk, incidence, and deaths from cancer as well as enhance the quality of life for cancer survivors.

Suggested CV Format

Curriculum Vitae*

Please upload your CV as a PDF file.

 sample_document.pdf (19.3 KB) ✕

Degree Transcripts

Please provide unofficial transcripts for all the degrees you previously specified. If you accept a position, you will be required to provide an official transcript to confirm eligibility.

Degree Transcripts*

Please upload your Degree Transcripts as PDF files. You may upload more than one

 sample_document.pdf (19.3 KB) ✕

You may upload another file:

[Choose Files](#) No file chosen

Personal Statement

300 words or less per prompt:

- Describe your interest in cancer research. Discuss how your experiences and background have influenced your research interests. Please include examples of your motivation, excitement, and drive for research.
- Please describe your career aspirations. How will training at NCI help you achieve your career goals.
- The lessons we take from obstacles we encounter can be fundamental to later success. Recount a time when you faced a challenge, setback, or failure. How did it affect you, and what did you learn from the experience?

Personal Statement*

Please upload your Personal Statement as a PDF file.

 sample_document.pdf (19.3 KB) ✕

Diversity Statement

Reflect on your personal experiences with diversity, equity, inclusion, and accessibility. Consider the various dimensions of diversity, such as culture, race, ethnicity, gender, sexual orientation, disability, socioeconomic background, and other relevant identities. Think about how your experiences and background have shaped your understanding of diversity and why it is important to you. (250 words or less)

Diversity Statement*

Please upload your Diversity Statement as a PDF file.

Train at NCI will send notifications to your Primary Email address. You may add additional email addresses if desired.

- *Alternate emails allow you to log in to Train at NCI using different email addresses from different login services.*
- *Alternate emails can also be used on your application(s) so that Training Program Staff and people you allow to view your application(s) can contact you at those addresses.*
