U.S. PRODUCERS' QUESTIONNAIRE

ALUMINUM EXTRUSIONS FROM CHINA, COLOMBIA, DOMINICAN REPUBLIC, ECUADOR, INDIA, INDONESIA, ITALY, MALAYSIA, MEXICO, SOUTH KOREA, TAIWAN, THAILAND, TURKEY, UNITED ARAB EMIRATES, AND VIETNAM

This questionnaire must be received by the Commission by October 18, 2023 See last page for instructions regarding how to file this questionnaire.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning aluminum extrusions from China, Colombia, Dominican Republic, Ecuador, India, Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand, Turkey, United Arab Emirates, and Vietnam ("subject countries") (Inv. Nos. 701-TA-695-698 and 731-TA-1643-1657 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on October 4, 2023, by the U.S. Aluminum Extruders Coalition (consisting of Alexandria Extrusion Company, Alexandria, Minnesota; APEL Extrusions Inc., Coburg, Oregon; Bonnell Aluminum, Newnan, Georgia; Brazeway, Adrian, Michigan; Custom Aluminum Products, South Elgin, Illinois; Extrudex Aluminum, North Jackson, Ohio; International Extrusions, Garden City, Michigan; Jordan Aluminum Company, Memphis, Tennessee; M-D Building Products, Oklahoma City, Oklahoma; Merit Aluminum, Corona, California; MI Metals, Oldsmar, Florida; Pennex Aluminum, Wellsville, Pennsylvania; Tower Extrusions, Olney, Texas; and Western Extrusions, Carrollton, Texas) and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, Pittsburgh, Pennsylvania. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/reports/active_import_injury_questionnaires and at https://ids.usitc.gov/case/8145/investigation/8464.

Aluminum extrusions covered by this proceeding are aluminum extrusions, regardless of form, finishing, or fabrication, whether assembled with other parts or unassembled, whether coated, painted, anodized, or thermally improved. Aluminum extrusions are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by the Aluminum Association commencing with the numbers 1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, subject aluminum extrusions made from an aluminum alloy with an Aluminum Association series designation commencing with the number 1 contain not less than 99 percent aluminum by weight. Subject aluminum extrusions made from an aluminum alloy with an Aluminum Association series designation commencing with the number 3 contain manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. Subject aluminum extrusions made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contain magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The scope also includes merchandise made from an aluminum alloy with an Aluminum Association series designation commencing with the number 5 (or proprietary equivalents or other certifying body equivalents) that have a magnesium content accounting for up to but not more than 2.0 percent of total materials by weight.

The country of origin of the aluminum extrusion is determined by where the metal is extruded (i.e., pressed through a die).

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion (drawn aluminum) are also included in the scope.

Subject aluminum extrusions are produced and imported with a variety of coatings and surface treatments, and types of fabrication. The types of coatings and treatments applied to aluminum extrusions include, but are not limited to, extrusions that are mill finished (i.e., without any coating or further finishing), brushed, buffed, polished, anodized (including brightdip), liquid painted, electroplated, chromate converted, powder coated, sublimated, wrapped, and/or bead blasted. Subject aluminum extrusions may also be fabricated, i.e., prepared for assembly, or thermally improved. Such operations would include, but are not limited to, extrusions that are cut-to-length, machined, drilled,

punched, notched, bent, stretched, stretch-formed, hydroformed, knurled, swedged, mitered, chamfered, threaded, and spun. Performing such operations in third countries does not otherwise remove the merchandise from the scope of the investigation.

The types of products that meet the definition of subject merchandise include but are not limited to, vehicle roof rails and sun/moon roof framing, solar panel racking rails and framing, tradeshow display fixtures and framing, parts for tents or clear span structures, fence posts, drapery rails or rods, electrical conduits, door thresholds, flooring trim, electric vehicle battery trays, heat sinks, signage or advertising poles, picture frames, telescoping poles, or cleaning system components. Heat sinks are included in the scope, regardless of whether the design and production of the heat sinks are organized around meeting specified thermal performance requirements and regardless of whether they have been tested to comply with such requirements.

Merchandise that is comprised solely of aluminum extrusions or aluminum extrusions and fasteners, whether assembled at the time of importation or unassembled, is covered by the scope in its entirety.

The scope also covers aluminum extrusions that are imported with non-extruded aluminum components beyond fasteners, whether assembled at the time of importation or unassembled, that are designed to be a part or subassembly of a larger product or system. Only the aluminum extrusion portion of the merchandise described in this paragraph, whether assembled or unassembled, is subject to duties. Examples of merchandise that is designed to be a part or subassembly of a larger product or system include, but are not limited to, window parts or subassemblies; door unit parts or subassemblies; shower and bath system parts or subassemblies; solar panel mounting systems; fenestration system parts or subassemblies, such as curtain wall and window wall units and parts or subassemblies of storefronts; furniture parts or subassemblies; appliance parts or subassemblies, such as fin evaporator coils and systems for refrigerators; railing or deck system parts or subassemblies; fence system parts or subassemblies; motor vehicle parts or subassemblies, such as bumpers for motor vehicles; trailer parts or subassemblies, such as side walls, flooring, and roofings; electric vehicle charging station parts or subassemblies; or signage or advertising system parts or subassemblies.

The scope excludes assembled merchandise containing non-extruded aluminum components beyond fasteners that is not a part or subassembly of a larger product or system and that is used as imported, without undergoing after importation any processing, fabrication, finishing, or assembly or the addition of parts or material, regardless of whether the additional parts or material are interchangeable. Examples of such excluded assembled merchandise include windows with glass, door units with door panel and glass, motor vehicles, trailers, furniture, appliances, and solar panels.

The scope also includes aluminum extrusions that have been further processed in a third country, including, but not limited to, the finishing and fabrication processes described above, assembly, whether with other aluminum extrusion components or with non-aluminum extrusion components, or any other processing that would not otherwise remove the merchandise from the scope if performed in the country of manufacture of the in-scope product. Third-country processing; finishing; and/or fabrication, including those processes described in the scope, does not alter the country of origin of the subject aluminum extrusions.

The following aluminum extrusion products are excluded: aluminum extrusions made from an aluminum alloy with an Aluminum Association series designations commencing with the number 2 (or proprietary equivalents or other certifying body equivalents) and containing in excess of 1.5 percent copper by weight; aluminum extrusions made from an aluminum alloy with an Aluminum Association series designation commencing with the number 5 (or proprietary equivalents or other certifying body equivalents) and containing in excess of 2.0 percent magnesium by weight; and aluminum extrusions

made from an aluminum alloy with an Aluminum Association series designation commencing with the number 7 (or proprietary equivalents or other certifying body equivalents) and containing in excess of 2.0 percent zinc by weight.

The scope also excludes aluminum alloy sheet or plates produced by means other than the extrusion process, such as aluminum products produced by a method of continuous casting or rolling. Cast aluminum products are also excluded. The scope also excludes unwrought aluminum in any form.

The scope also excludes collapsible tubular containers composed of metallic elements corresponding to alloy code 1080A as designated by the Aluminum Association where the tubular container (excluding the nozzle) meets each of the following dimensional characteristics: (1) length of 37 millimeters ("mm") or 62 mm, (2) outer diameter of 11.0 mm or 12.7 mm, and (3) wall thickness not exceeding 0.13 mm.

Also excluded from the scope of these investigations is certain rectangular wire, imported in bulk rolls or precut strips and produced from continuously cast rolled aluminum wire rod, which is subsequently extruded to dimension to form rectangular wire with or without rounded edges. The product is made from aluminum alloy grade 1070 or 1370, with no recycled metal content allowed. The dimensions of the wire are 2.95 mm to 6.05 mm in width, and 0.65 mm to 1.25 mm in thickness. Imports of rectangular wire are provided for under HTSUS categories 7605.19.0000, 7604.29.1090, or 7616.99.5190.

Also excluded from the scope of these investigations are all products covered by the scope of the antidumping and countervailing duty orders on Aluminum Extrusions from the People's Republic of China. See Aluminum Extrusions from the People's Republic of China: Antidumping Duty Order, 76 FR 30650 (May 26, 2011); Aluminum Extrusions from the People's Republic of China: Countervailing Duty Order, 76 FR 30653 (May 26, 2011).

Imports of the subject merchandise are primarily provided for under the following categories of the Harmonized Tariff Schedule of the United States (HTSUS): 7604.10.1000; 7604.10.3000; 7604.10.5000; 7604.21.0010; 7604.29.10090; 7604.29.1090; 7604.29.3060; 7604.29.3090; 7604.29.5050; 7604.29.5090; 7608.10.0030; 7608.10.0090; 7608.20.0030; 7608.20.0090; 7609.00.0000; 7610.10.0010; 7610.10.0020; 7610.10.0030; 7610.90.0040; and 7610.90.0080.

Imports of the subject merchandise, including subject merchandise entered as parts of other products, may also be classifiable under the following additional HTSUS categories, as well as other HTSUS categories: 6603.90.8100; 7606.12.3091; 7606.12.3096; 7615.10.2015; 7615.10.2025; 7615.10.3015; 7615.10.3025; 7615.10.5020; 7615.10.5040; 7615.10.7125; 7615.10.7130; 7615.10.7155; 7615.10.7180; 7615.10.9100; 7615.20.0000; 7616.10.9090; 7616.99.1000; 7616.99.5130; 7616.99.5140; 7616.99.5190; 8302.10.3000; 8302.10.6030; 8302.10.6060; 8302.10.6090; 8302.20.0000; 8302.30.3010; 8302.30.3060; 8302.41.3000; 8302.41.6015; 8302.41.6045; 8302.41.6050; 8302.41.6080; 8302.42.3010; 8302.42.3015; 8302.42.3065; 8302.49.6035; 8302.49.6045; 8302.49.6055; 8302.49.6085; 8302.50.0000; 8302.60.9000; 8305.10.0050; 8306.30.0000; 8414.59.6590; 8415.90.8045; 8418.99.8005; 8418.99.8050; 8418.99.8060; 8419.50.5000; 8419.90.1000; 8422.90.0640; 8424.90.9080; 8473.30.2000; 8473.30.5100; 8479.89.9599; 8479.90.8500; 8479.90.9596; 8481.90.9060; 8481.90.9085; 8486.90.0000; 8487.90.0080; 8503.00.9520; 8508.70.0000; 8513.90.2000; 8515.90.2000; 8516.90.5000; 8516.90.8050; 8517.71.0000; 8517.79.0000; 8529.90.7300; 8529.90.9760; 8536.90.8585; 8538.10.0000; 8541.90.0000; 8543.90.8885; 8708.10.3050; 8708.29.5160; 8708.80.6590; 8708.99.6890; 8807.30.0060; 9013.90.7000; 9013.90.8000; 9031.90.9195; 9401.99.9081; 9403.10.0040; 9403.20.0086; 9403.91.0005; 9403.91.0010; 9403.91.0080; 9403.99.1040; 9403.99.1050; 9403.99.1085; 9403.99.2040; 9403.99.2080; 9403.99.3005; 9403.99.3010; 9403.99.3080; 9403.99.4004; 9403.99.4010; 9403.99.4080; 9403.99.5005; 9403.99.5010; 9403.99.5080; 9403.99.9010; 9403.99.9015; 9403.99.9020; 9403.99.9040; 9403.99.9045; 9403.99.9051; 9403.99.9061; 9405.99.4020; 9506.11.4080; 9506.51.4000; 9506.51.6000; 9506.59.4040; 9506.70.2090; 9506.91.0010; 9506.91.0020;

9506.91.0030; 9506.99.0510; 9506.99.0520; 9506.99.0530; 9506.99.1500; 9506.99.2000; 9506.99.2580; 9506.99.2800; 9506.99.5500; 9506.99.6080; 9507.30.2000; 9507.30.4000; 9507.30.6000; 9507.30.8000; 9507.90.6000; and 9603.90.8050.

While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope is dispositive.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information. -- The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of aluminum extrusions and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1a. Reporting requirements.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire for use by the Office of Management and Budget.

Hours	Dollars

No

Yes

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please provide such comments to the Office of Investigations, import injury@usitc.gov.

I-1b.	TAA information release In the event that the U.S. International Trade Commission (USITC)
	makes an affirmative final determination in this proceeding, do you consent to the USITC's
	release of your contact information (company name, address, contact person, contact person's
	title, telephone number, email address) appearing on the front page of this questionnaire to the
	Departments of Commerce, Labor, and Agriculture, as applicable, so that your firm and its
	workers can be made eligible for benefits under the Trade Adjustment Assistance program?

I-2a. <u>Establishments covered</u>.--Provide the city, state, zip code, and brief description of each establishment covered by this questionnaire. Firms operating more than one establishment should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of aluminum extrusions, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

	Commission s	taff may contact that individual regarding	ng the confidential information submitted
	in Part II.	,	
	Name		
	Title		
	Fmail		

II-2a. <u>Changes in operations.</u>—Please indicate whether your firm has experienced any of the following changes in relation to the production of aluminum extrusions since January 1, 2020.

Check	as many as appropriate.	If checked, please describe the nature, timing / duration, and impact on operations of any such reported changes as well as the business reasons for them; leave completely blank if not applicable
	Plant openings	
	Plant closings	
	Prolonged shutdowns	
	Production curtailments	
	Relocations	
	Expansions	
	Acquisitions	
	Consolidations	
	Weather-related or force majeure events	
	Other (e.g., revised labor agreements, technology)	

II-2b. <u>COVID-19 pandemic</u>.—Has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in your firm's supply chain arrangements, production, employment, and shipments relating to aluminum extrusions? In your response, please discuss the duration and timing of any such changes as they relate to your firm's operations.

No	If yes, describe these changes including the impact over time on the (a) supply chain, (b) production and shipments, and (c) employment with respect to aluminum extrusions.

II-3a. **Production using same machinery.--**Please report your firm's production of products using the same equipment, machinery, or employees as used to produce aluminum extrusions, and the combined capacity (both installed and practical capacity) on this shared equipment, machinery, or employees in the periods indicated.

"Installed overall capacity" – The level of production that your establishment(s) could have attained, assuming your firm's optimal product mix, and based solely on existing capital investments, i.e., machinery and equipment that is in place and ready to operate. This capacity measure does <u>not</u> take into account other constraints to production such as existing workforce constraints, availability of raw materials, or downtime for maintenance, repair, and clean-up. This capacity measure is sometimes referred to as "nameplate" or "theoretical" capacity.

"Practical overall capacity" – The level of production that your establishment(s) could reasonably have expected to attain, taking into account your firm's actual product mix over the period. This capacity measure is based on not only existing capital investments, i.e., machinery and equipment that is in place and ready to operate; but also non-capital investment constraints, such as (1) normal operating conditions, including normal downtime for maintenance, repair, and cleanup; (2) your firm's existing in place and readily available labor force; (3) availability of material inputs; and (4) any other constraints that may have limited your firm's ability to produce the reported products. Importantly, this capacity measure is the maximum "practical" production your firm could have achieved without hiring new personnel or expanding the number of shifts operated in the period.

"Practical aluminum extrusions capacity" – The level of production of aluminum extrusions that your establishment(s) could reasonably have expected to attain. The same assumptions apply to this capacity measure as for practical overall capacity, but only includes the portion of practical overall capacity allocated to the production of aluminum extrusions based on the actual product mix experienced over the period.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

Takes into account	Installed overall capacity	Practical overall capacity	Practical aluminum extrusions capacity
Existing capital investments	Yes	Yes	Yes
Product mix	Yes	Yes	Yes
Normal downtime, maintenance, repair and clean-up	No	Yes	Yes
Existing labor force	No	Yes	Yes
Availability of material inputs	No	Yes	Yes
Actual number of shifts and hours operated	No	Yes	Yes
Limited to aluminum extrusions	No	No	Yes

II-3a. **Production using same machinery.**—**Continued**

	Quantit	y (in short tons	5)				
	Calendar year			Januar	January-June		
ltem	2020	2021	2022	2022	2023		
Capacity measures: Installed overall capacity ¹							
Practical overall capacity ¹²							
Practical aluminum extrusions capacity ^{3 4}	0	0	0	0	0		
Production of: Aluminum extrusions ^{3 4}	0	0	0	0	0		
Other products ⁵							
Total production using same machinery or				_	_		
workers	0	0	0	0	0		

¹ Data reported for both "installed overall" and "practical overall" capacity should each individually be greater than data reported for total production (last line). Additionally, data reported for "installed overall" capacity should be greater than "practical overall" capacity in every period.

² Please provide details in your response to the question on capacity constraints in question II-3d below that explain the differences reported between "installed" overall capacity and "practical" overall capacity.

³ Data for this indicator will populate here once reported below in question II-8.

⁴ Data reported for practical aluminum extrusions capacity should be greater than the data reported for production of aluminum extrusions in each period, if not revise prior to submission to the Commission. Additionally, if your firm reports the production of no other products on the same machinery and using the same workers as aluminum extrusions then "practical overall" and "practical aluminum extrusions" capacity measures should be equal to each other.

⁵ Please identify these products: _____.

U.S. Producers	' Questionnaire –	Aluminum	Extrusions	(Preliminary)
----------------	-------------------	-----------------	------------	---------------

II-3b.	Operating parametersThe practical overall capacity reported in II-3a is based on the following
	operating parameters:

Hours per week	Weeks per year

II-3c.	<u>Capacity calculations</u> Please describe the methodology used to calculate <i>installed</i> and <i>practical</i> overall production capacities reported in II-3a, and explain any changes in reported capacities.	

II-3d. Practical overall capacity constraints.--Please describe the constraint(s) that set the limit(s) on your firm's practical overall capacity over the period reported in question II-3a. If different constraints were binding over different periods reported, please specify when each constraint was limiting your reported practical overall capacity. If a constraint was not actually binding over the period reported, but was still a constraint to achieving the installed capacity level, indicate at what level it would have been binding.

Constraint (check as many as appropriate)		Description (If checked, please describe the details, timing, and duration of the constraint; leave completely blank if not applicable)
	Production bottlenecks	
	Existing labor force	
	Supply of material inputs	
	Fuel or energy	
	Storage capacity	
	Logistics/transportation	
	Other constraints (list the specific constraints in the description field)	

U.S. Producers' Questionnaire – Aluminum Extrusions (Preliminary) Reaching installed overall capacity. -- Please describe and quantify the amount of time it would take II-3e. and the additional actions that would be needed (e.g., hiring new workers, expanding shifts, procuring larger sources of raw material supply, etc.) for your firm to be able to fully utilize the reported installed overall capacity reported in II-3a. II-3f. Excess capacity: To the extent that your company is reporting excess capacity, please report, with specificity: (1) which machines or equipment (or other elements of production) would need to be brought back into production for your plant to operate at full capacity, and (2) the specific dates on which such machines or equipment were last used by your plant to produce aluminum extrusions. II-4. Product shifting.— (a) Is your firm able to switch production (capacity) between aluminum extrusions and other products using the same equipment and/or labor? If yes—(i.e., have produced other products or are able to produce other No Yes products) Please identify other actual or potential products. (b) Please describe the factors that affect your firm's ability to shift capacity between products (e.g., time, cost, relative price change, etc.), and the degree to which these factors enhance or constrain such shifts.

II-5. <u>Capacity checklist.</u>--Please check that the capacity numbers reported in question II-3a follow the Commission's relevant definitions for capacity.

Item	√ if Yes
Are all three capacity measures reported based on <u>currently installed</u> <u>machinery and equipment</u> (i.e., the reported capacity level would not require additional capital investments in order to achieve)?	
Are practical overall capacity and practical aluminum extrusions capacity measures reported based on <u>existing labor force</u> (i.e., the reported capacity level would not require hiring additional production related workers or adding shifts)?	
Are practical overall capacity and practical aluminum extrusions capacity measures based on <i>the actual <u>availability of material inputs</u>?</i>	
Do both practical overall capacity and practical aluminum extrusions capacity measures account for <u>normal downtime, maintenance, repair and clean-up</u> activities?	
Does the difference between practical overall capacity and practical aluminum extrusions capacity equal the portion of practical overall capacity that is dedicated to the production of out-of-scope products?	

Note: If your firm is not able to answer "yes" to any of the above criteria as it relates to your firm's reported capacity levels, please revise your capacity numbers to be in conformance with the appropriate definition prior to submission to the Commission.

II-6. **Tolling**.--Since January 1, 2020, has your firm been involved in a toll agreement regarding the production of aluminum extrusions?

"Toll agreement"-- Agreement between two firms whereby the first firm ("tollee") furnishes the raw materials and the second firm ("toller") uses the raw materials to produce a product that it then returns to the first firm with a charge for processing costs, overhead, etc.

No	Yes	
		If yes—Please complete the table below.

Does your firm act as the toller or tollee in this arrangement?	Toller:	Tollee:	
Report the share of your firm's production of aluminum extrusions that was included in this toll arrangement in 2022.		%	
Please describe the activities performed in this tolling arrangement:			
Please indicate the name(s) of the firm(s) involved:			

II-7. Foreign trade zones

(a) <u>Firm's FTZ operations</u>.--Does your firm produce aluminum extrusions in and/or admit aluminum extrusions into a foreign trade zone (FTZ)?

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

No	If yesDescribe the nature of your firm's operations in FTZs and identify the specific FTZ site(s).

(b) Other firms' FTZ operations.--To your knowledge, do any firms in the United States import aluminum extrusions into a foreign trade zone (FTZ) for use in distribution of aluminum extrusions and/or the production of downstream articles?

No	Yes	If yesIdentify the firms and the FTZs.	

II-8. **Shipments and inventory data.-**-Report you firm's uses (shipment or storage) of domestically produced aluminum extrusions during the specified periods.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"Commercial U.S. shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-8. <u>Production, shipment, and inventory data</u>.--*Continued*

Quantity	(in short tons	s) and value (<i>ii</i>	1 \$1,000)

<u>RECONCILATION OF U.S. SHIPMENTS BY PRODUCT TYPE.</u>—Please ensure that the quantities reported in this question (i.e. lines O through V across all columns) equal the quantity and value reported for U.S. shipments (i.e. lines D through I) for 2022 in question II-8. If calculated fields below return values other than zero (i.e., "0"), the data reported must be revised prior to submission to the Commission.

Reconciliation	Calendar year 2022
Quantity: $O + Q + S + U - D - F - H = zero ("0"),$	
if not revise.	0
Value: $P + R + T + V - E - G - I = zero ("0"), if$	
not revise.	0

II-11. **Employment data**.--Report your firm's employment-related data related to the production of aluminum extrusions and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to June periods, calculate similarly and divide by 6.

If your firm had the same number of PRWs in all calendar year and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-June (Q1+Q2), or Jan-Sept (Q1+Q2+Q3).

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

	Calendar year			January-June	
Item	2020	2021	2022	2022	2023
Average number of PRWs (number)					
Hours worked by PRWs (1,000 hours)					
Wages paid to PRWs (\$1,000)					

Explanation of trends:

II-12.	Related firms.—If your firm reported transfers to related firms in question II-8, please identify the firm(s) and indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.
	and whether the related firms also processed inputs from sources other than your firm.

II-13. Purchases.--Has your firm purchased aluminum extrusions produced in the United States or in other countries since January 1, 2020? (Do not include imports for which your firm was the importer of record. These should be reported in an importer questionnaire.) Please respond separately for aluminum extrusions subject to these investigations ("China, subject") and aluminum extrusions currently under the existing antidumping and countervailing duty orders from China ("China, nonsubject").

"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has directly imported the product.

"Import" —A transaction to buy from a foreign supplier where your firm is the importer of record.

No	If yesReport such purchases in the table below and explain the reasons for your firms' purchases.

Note: If your firm served as the importer of record for any purchases from foreign suppliers, either for your own account or as a service for another entity, those purchases are to be considered "imports" not "purchases" and **should not** be included in the table below

II-13. Purchases.--Continued

III-8. Cost assignment/allocation basis.—Briefly describe the assignment/allocation bases used by your firm to assign the costs and expenses listed below for aluminum extrusions in the normal course of business and in the financial results reported in question III-9a (e.g., actual costs, standard costs, percentage of COGS, percentage of sales, etc.).

	Assignment/allocation bases used for aluminum extrusions—				
Cost/expense	In the normal course of business	In the financial results at III-9a			
Raw materials					
Direct labor					
Other factory costs					
SG&A expenses					
Interest expense					
Other income/expenses					

III-9a. <u>Operations on aluminum extrusions</u>. — Report the revenue and related cost information requested below on the aluminum extrusions operations of your firm's U.S. establishment(s). Include only sales (whether domestic or exports) and costs related to your U.S. manufacturing operations. <u>Do not</u> report any revenue or cost data related to the resale of purchased product.

Net sales—Report all commercial sales, internal consumption, and transfers to related firms, whether these are domestic sales or exports. Report net sales values less discounts, returns, allowances, and prepaid freight, in U.S. dollars, f.o.b. your point of shipment. The freight costs associated with delivering the product to your customer should not be included.

Note: If the financial data are reported on a calendar-year basis, the total net sales quantities and values should match the total shipment quantities and values reported in Part II of this questionnaire (see question III-14 for a reconciliation grid).

Internal consumption—Product consumed internally by your firm. Report internal consumption at fair market value even if this is not how these transactions are valued in your own books and records. This would commonly be estimated based on the company's commercial sales of similar product or market knowledge.

Transfers to related firms—Sales made to related firms. Report transfers to related firms at fair market value even if this is not how these transactions are valued in your own books and records. This would commonly be estimated based on the company's commercial sales of similar product or market knowledge.

Costs and expenses—Include costs and expenses associated with all reported net sales (i.e., for both domestic and export commercial sales, internal consumption, and transfers to related firms). If any freight costs were removed from net sales values, ensure the associated costs are removed from the applicable cost/expense line.

Inputs from related suppliers—Any inputs purchased from related suppliers should be reported in a manner consistent with your firm's accounting books and records.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the financial data, as Commission staff may contact your firm regarding questions on the financial data. The Commission may also request that your company submit copies of the supporting documents/records (financial statements, including internal profit-and-loss statements for the division or product group that includes aluminum extrusions, as well as specific statements and worksheets) used to compile these data.

III-9a. **Operations on aluminum extrusions**.—*Continued*

Quantity (in short tons) and value (in \$1,000)						
		Years	January-June			
Item	2020	2021	2022	2022	2023	
Net sales quantities:						
Commercial sales						
Internal consumption						
Transfers to related firms						
Total net sales quantities	0	0	0	0	0	
Net sales values: Commercial sales

SG&A expenses						
Operating income (loss)	0	0	0	0	0	
Other expenses and income: Interest expense						
All other expense items						
All other income items						
Net income or (loss) before						
income taxes	0	0	0	0	0	

III-9b.	<u>Financial data reconciliation</u> Certain line items from question III-9a, including total net sales
	quantities and values, total COGS, gross profit (or loss), operating profit (or loss), and net
	income (or loss), have been calculated based on the data submitted for other line items. Are the
	data in these calculated line items correct according to your firm's financial records ignoring
	non-material differences that may arise due to rounding?

		If no If the calculated line items do not show the correct data, please double check the feeder data for data entry errors and revise.
		Also, check signs accorded to the post operating income line items. The two expense line items should report positive numbers (i.e., expenses are positive, and incomes or reversals are negative in these lines – instances of the latter should be rare in these lines). The income line item should also, in most instances, be a positive number (i.e., income is positive, and expenses or reversals are negative in this line).
Yes	No	If, after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated line items persist, please identify and discuss the differences in the space below.

III-9c. Raw materials.—Please report the share of total raw material costs in full-year 2022 (reported in III-9a) for the following raw material inputs:

Input	Share of full-year 2022 total raw material costs (percent)
Purchased unalloyed aluminum ingots ¹	
Purchased aluminum scrap and metallics ²	
Purchased semi-finished alloy aluminum billets	
Purchased other raw material inputs ³	
Total (should sum to 100 percent)	0.0

¹This line item refers to inputs used in your firm's vertically integrated cast house(s).

III-9d. <u>Depreciation expense</u>.—Please report the amount of depreciation expense that is included within the reported financial results at question III-9a.

	Years			Januar	y-June
Item	2020	2021	2022	2022	2023
Depreciation expense (in \$1,000)					

III-9e.	<u>Depreciation expense classification</u> .—Please indicate the line item(s) within question III-9a (e.g., other factory costs, SG&A expenses, etc.) that include the depreciation expense reported above.

² This line item refers to inputs used in your firm's vertically integrated cast house(s). Internally generated scrap that is consumed directly can also be included in this line item. Please generally describe the firm's cost accounting treatment of internally generated scrap:

³ If there are notable or significant raw material inputs included within the "other material inputs" category, please list those here and provide the share of the total raw material costs for which they account:

III-10a. Nonrecurring items (charges and gains) included in the aluminum extrusions financial results.—Please report all material (significant) nonrecurring items (charges and gains) that are included in the reported results at question III-9a. If a nonrecurring item that is not product-specific was allocated to the results at question III-9a, please report the allocated value, below, rather than the aggregate amount.

Note: The Commission's objective here is to gather information on <u>material (significant)</u> nonrecurring items which impacted the reported financial results for aluminum extrusions in question III-9a.

	Years			January-June	
Item	2020	2021	2022	2022	2023
			Value (<i>\$1,000</i>)		
Nonrecurring item 1					
Nonrecurring item 2					
Nonrecurring item 3					
Nonrecurring item 4					
Nonrecurring item 5					
Nonrecurring item 6					
Nonrecurring item 7					

III-10b. Nonrecurring items (charges and gains) included in the aluminum extrusions financial results.—In this table, please provide a brief description of each nonrecurring item reported above and indicate the specific line item within question III-9a in which the nonrecurring item is classified.

	Description of the nonrecurring item	Location (i.e., line item) within question III-9a
Nonrecurring item 1		
Nonrecurring item 2		
Nonrecurring item 3		
Nonrecurring item 4		
Nonrecurring item 5		
Nonrecurring item 6		
Nonrecurring item 7		

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and
	records of the company.—If non-recurring items were reported in question III-10 above, please
	identify where your company recorded these items in your accounting books and records in the
	normal course of business, just as responses to question III-10 identify the specific line items in
	question III-9a where these items are reported.

III-12a. Asset values.—Report the total assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of aluminum extrusions. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for aluminum extrusions in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations used in question III-9a.

Note: Total assets should reflect the <u>net amount of assets</u> (i.e., after any accumulated depreciation and allowances deducted) and should be <u>allocated to</u> aluminum extrusions if these assets are also related to other products.

Value (in \$1,000)				
	Years			
Item	2020	2021	2022	
Total assets (net)				

	Total assets (net)					
III-12b.	. <u>Description of asset values</u> .—Please provide explanations for any substantial changes in total asset value during the period; e.g., due to write-offs, major purchases, and revaluations. Also describe the main asset categories (both current and long-term) included in the above response.					
III-13a.	<u>Capital expenditures and research and development ("R&D") expenses</u> .—Report your firm's capital expenditures and research and development expenses for aluminum extrusions.					
			Value (in	\$1,000)		
			Years		January-June	
	Item	2020	2021	2022	2022	2023
	Capital expenditures					
	R&D expenses					
III-13b. <u>Description of reported capital expenditures</u> .—Please describe the nature, focus, and significance of your firm's reported capital expenditures. If no capital expenditure data we reported, please explain the reason.						
III-13c.	Description of reported your firm's reported R&	-	s .—Please o	describe the nature	e, focus, and si	gnificance of

III-14a. <u>Data consistency and reconciliation</u>.—The quantities and values of total net sales reported in question III-9a should reconcile with the total shipments reported in question II-8 (including export shipments) for the annual-year periods as long as they are reported on the same calendar-year basis. The interim-period data should reconcile whether the financial data are on a calendar- or fiscal-year basis.

If the calculated fields below return values other than zero (i.e., "0") this indicates the total net sales quantities and values do not match the total shipments quantities and values.

		Years		Januar	y-June
Reconciliation	2020	2021	2022	2022	2023
Quantity: Trade data from question II-8 (lines D, F, H, and J) less financial total net sales quantity data from question III-9a, = zero ("0").	0	0	0	0	0
Value: Trade data from question II-8 (lines E, G, I, and K) less financial total net sales value data from question III-9a, = zero ("0").	0	0	0	0	0

III-17.	Anticipated effects of imports. — Does your firm anticipate any negative effects due to imports
	of aluminum extrusions from Dominican Republic (DR) specifically or from China, Columbia,
	Dominican Republic, Ecuador, India, Indonesia, Italy, South Korea, Malaysia, Mexico, Taiwan,
	Thailand, Turkey, Vietnam, and/or United Arab Emirates?

r	No	Yes—DR specifically	Yes—Any subject country	If yes for either, my firm anticipates negative effects as follows.

III-18. <u>Effects on financial performance of COVID-19.</u>—Has the COVID-19 pandemic, or any government actions taken to contain the spread of the COVID-19 virus, affected the financial performance of your firm's operations on aluminum extrusions as reported in question III-9a? In your response, please include the duration and timing of any impacts as they relate to your firm's financial performance.

No	Yes	If yes, please describe these effects.

III-19.	Other explanations.—If your firm would like to further explain a response to a question in Part
	III for which a narrative box was not provided, please note the question number and the
	explanation in the space provided below. Please also use this space to highlight any issues you
	firm had in providing the data in this section.

-		

PART IV.--PRICING AND MARKET FACTORS

Further information on this part of the questionnaire can be obtained from John Benedetto (202-205-3270, john.benedetto@usitc.gov).

IV-1. <u>Contact information</u>.--Please identify the individual that Commission staff may contact regarding the confidential information submitted in Part IV.

Name	
Title	
Email	
Telephone	

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2020 of the following products produced by your firm.
 - **Product 1.--** Mullions and Split-Mullions, Anodized Finish, Unworked, Alloy in the 6000 series Size: 1.75" x 3" to 3" x 8", Weight: 0.6lb/ft to 7lb/ft;
 - **Product 2.--** Tub and shower components, Anodized and Bright Dip Finishes, Unworked, Alloys in the 6000 series Size: CCD: 0.6" to 3", Weight: 0.1 lb/ft to 1lb/ft;
 - Product 3.-- Noise Vibration and Harshness (NVH) Brackets and Inner Inserts, 6061-T6, single or multi-void hollows, 7"-12" CCD, wt/ft 1-8 lbs, e-coated or uncoated, cut to length, machined, deburred;
 - **Product 4.--** Window Treatments, including Vertical Blinds and Shades, Painted Finish, Alloy in the 6000 series Size: CCD: 1.0" to 6.0", Weight: 0.20 lb/ft to 2.0 lb/ft;

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

IV-2a. During January 2020-June 2023, did your firm produce and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table as appropriate.
NoSkip to question IV-3.

Product 4:

IV-2b. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² produced and sold by your firm.

Report data in *pounds* (not short tons) and *actual dollars* (not 1,000s).

IV-2c.	Price data checklistPlease check that the pricing data in question IV-2(b) have been correctly
	reported.

	Are the price data reported above:				
	In actual dollars (<i>not</i> \$1,000)?				
	In actual pounds (<i>not</i> short tons)?				
	Valued f.o.b. U.S. point of shipment (i.e., exclude U.S. inland transportation costs)?				
	Reported net of all discounts, rebates, and returns (deducted from the quarter in which the original sale occurred)?				
	Reported for commercial U.S. shipments only (i.e., exclude internal consumption, transfers, and exports)?				
	Less than or equal to the quantities and values reported in part II for commercial U.S. shipments in each period?				
	Explanation(s) for any boxes not checked:				
IV-2d.	Pricing data methodologyPlease describe the method and the kinds of documents/that were used to compile your price data.	records			

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

IV-3.	Price	setting.	_
-------	-------	----------	---

(a) How does your firm determine the prices that it charges for sales of aluminum extrusions (check all that apply)?

Transaction by transaction	Contracts	Set price lists	Other	If other, describe

(b) Does your firm set prices for aluminum extrusions based on conversion price (i.e., with a raw material passthrough) or overall price?

Check if yes	Prices set based on	Describe
	Conversion price	
	Overall price	
	Other	

IV-4. **Discount policy.--**Please indicate and describe your firm's discount policies (*check all that apply*).

Quantity discounts	Annual total volume discounts	No discount policy	Other	Describe

IV-5. **Pricing terms.--**On what basis are your firm's prices of domestic aluminum extrusions usually quoted *(check one)*?

Delivered	F.o.b.	If f.o.b., specify point

IV-6. <u>Contract versus spot</u>.--Approximately what shares of your firm's sales of its U.S.-produced aluminum extrusions in 2022 were on the basis of (1) short-term contracts, (2) annual contracts, (3) long-term contracts, and (4) spot sales?

	Type of sale					
ltem	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)	Spot sales (for a single delivery)	Total (should sum to 100.0%	d o
Share of 2022 sales	%	%	%	%	0.0	%

IV-7. <u>Contract provisions.</u>—Please fill out the table regarding your firm's typical sales contracts for U.S.-produced aluminum extrusions (or check "not applicable" if your firm does not sell on a short-term, annual and/or long-term contract basis).

Typical sales contract provisions	ltem	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)
Average contract duration	No. of days		365	
Price renegotiation	Yes			
(during contract period)	No			
	Quantity			
Fixed quantity and/or price	Price			
,. ,	Both			
Indexed to raw	Yes			
material costs ¹	No			
Not applicab	le			
¹ Please identify the in	dexes used:			

IV-8. <u>Lead times.</u>—What is your firm's share of sales of its U.S.-produced aluminum extrusions from inventory and produced to order, and the typical lead time between a customer's order and the date of delivery for your firm's sales of its U.S.-produced aluminum extrusions?

Source	Share of 2022 sales	Lead time (Average number of days)
From inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

IV-9.	Shipping information

(a)	Who generally arranges the transportation to your firm's customers' locations?
	Your firm Purchaser (check one)

(b) Indicate the approximate percentage of your firm's sales of aluminum extrusions that are delivered the following distances from its production facility.

Distance from production facility	Share
Within 100 miles	%
101 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

IV-10. <u>Geographical shipments.</u>—In which U.S. geographic market area(s) has your firm sold its U.S.-produced aluminum extrusions since January 1, 2020 (check all that apply)?

Geographic area	√ if applicable
Northeast.–CT, ME, MA, NH, NJ, NY, PA, RI, and VT.	
MidwestIL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.	
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.	
Central Southwest.—AR, LA, OK, and TX.	
Mountains.—AZ, CO, ID, MT, NV, NM, UT, and WY.	
Pacific Coast.–CA, OR, and WA.	
Other .—All other markets in the United States not previously listed, including AK, HI, PR, and VI.	

IV-11.	<u>Inland transportation costs.</u> —What is the approximate percentage of the cost of	of U.Sproduced
	aluminum extrusions that is accounted for by U.S. inland transportation costs?	percent

IV-12. <u>End uses.</u>--List the end uses of the aluminum extrusions that your firm manufactures. For each end-use product, what percentage of the <u>total cost</u> is accounted for by aluminum extrusions and other inputs?

		t of end use product ted for by	Total
			(should sum to
End-use product	Aluminum extrusions	Other inputs	100.0% across)
	%	%	0.0 %
	%	%	0.0 %

IV-25. <u>C</u>	ompeti	<u>tion fr</u>	<u>om im</u>	ports

(a)	Lost revenueSince January 1, 2020: To avoid losing sales to competitors selling
	aluminum extrusions from China, Colombia, Dominican Republic, Ecuador, India,
	Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand, Turkey, United Arab
	Emirates, and/or Vietnam, did your firm:

Item	No	Yes
Reduce prices		
Roll back announced price increases		

(b) <u>Lost sales.</u>--Since January 1, 2020: Did your firm lose sales of aluminum extrusions to imports of this product from China, Colombia, Dominican Republic, Ecuador, India, Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand, Turkey, United Arab Emirates, and/or Vietnam?

No	Yes	

(c) The submission of lost sales/lost revenue allegations is to be completed only by NON-PETITIONERS.

If your firm indicated "yes" to any of the above, your firm can provide the Commission with additional information by downloading and completing the lost sales/lost revenues worksheet at http://usitc.gov/trade_remedy/question.htm. Note that the Commission may contact the firms named to verify the allegations reported.

Is your firm submitting the lost sales/lost revenues worksheet?

No—Please explain.
Yes—Please complete the worksheet and submit via the Commission dropbox.
https://dropbox.usitc.gov/oinv/. (PIN: ALUM)

IV-26.	Other explanationsIf your firm would like to further explain a response to a question in Part
	IV for which a narrative response box was not provided, please note the question number and
	the explanation in the space provided below. Please also use this space to highlight any issues
	your firm had in providing the data in this section.

PART V.--ALTERNATIVE PRODUCT INFORMATION

Further information on this part of the questionnaire can be obtained from Jordan Harriman (202-205-2610, jordan.harriman@usitc.gov).

<u>Finished heat sinks</u> — Finished heat sinks are fabricated heat sinks, sold to electronics manufacturers, the design and production of which are organized around meeting certain specified thermal performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

<u>All other aluminum extrusions</u>—Aluminum extrusions as defined on page 2, other than finished heat sinks as defined above.

V-1. Comparability of finished heat sinks and all other aluminum extrusions.—For each of the following, indicate whether listed products are: fully comparable or the same, *i.e.*, have no differentiation between them; mostly comparable or similar; somewhat comparable or similar; never or not-at-all comparable or similar; or no familiarity with products.

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

(a) <u>Physical Characteristics and End Uses</u>.--The differences and similarities in the physical characteristics and end uses.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their physical characteristics and uses:
Finished heat sinks vs. All other aluminum extrusions		

(b) <u>Interchangeability</u>.--The ability to substitute the products in the same application.

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their <u>interchangeability</u> :
Finished heat sinks vs. All other aluminum extrusions		

V-1. Comparability of Finished heat sinks and All other aluminum extrusions.—Continued

F: fully comparable or the same, i.e., have no differentiation between them;

M: mostly comparable or similar;

S: somewhat comparable or similar;

N: never or not-at-all comparable or similar; or

0: no familiarity with products.

(c) <u>Channels of distribution</u>.--Channels of distribution/market situation through which the products are sold (i.e., sold direct to end users, through wholesaler/distributors, etc.).

Product-pair	Comparison	Please provide a narrative discussion for the comparability ratings you provided in terms of their channels of distribution:

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://usitc.gov/reports/active import injury questionnaires.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: ALUM

• E-mail.—E-mail the MS Word questionnaire to <u>Jordan.harriman@usitc.gov</u>; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm does not produce this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1802). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7).
