Question #20 & 28, 38, & 45 –

- The IRA rollover field had previously had a note pointing to Form 5498. This was not clear and now there are no instructions (on paper FAFSA or FAFSA prototype). The student/spouse/parents will need some guidance on where to gather this amount.

- Could the question about the Earned Income Tax Credit (EITC) refer to EIC instead of EITC since the tax return shows only EIC. Could there be instructions with a tax line number for this?

(for example, Line 27 of the tax return, Description on tax return is Earned Income Credit (EIC))

- For the grant/scholarship amount, why is the amount of grants/scholarships optional? Why is this amount not on the spouse section? Could the “reported as income to the IRS” be in bold letters as was done in 23-24?

- Each field from the tax return should refer to the 2022 tax year.
