Transition to an online portal will allow electronic grant application and reporting which will increase the efficiency of IAF's grant management program.

Summary Form Under Review

Title of Collection: Grant Application, IAF-02.
Type of Review: New information collection.
OMB Control Number: Not assigned, new information collection.
Type of Respondent/Affected Public: Private Sector, Businesses or other for profits, Not-for-profit institutions.
Frequency: Once.
Estimated Number of Respondents per Year: 1,400.
Estimated Time per Respondent: 14 hours.
Estimated Total Annual Burden Hours: 19,600 hours.

Abstract: The IAF works to promote sustainable development in Latin America and the Caribbean by directly supporting qualified civil society organizations through funding actions, such as grants and cooperative agreements. This collection will gather application information directly from grant seekers including details about the applicant's organization, the development opportunity, and proposed project activities. Using this information, IAF is able to perform an initial assessment of the proposed project and determine which applicants are qualified as well as which projects are best positioned to advance grassroots development in the region. The IAF has made an effort to standardize the basic level of information required for this review in order to reduce the burden on both applicants and IAF staff reviewing the applications.

Summary Form Under Review

Title of Collection: Grant Programmatic and Financial Reporting, IAF-03.
Type of Review: New information collection.
OMB Control Number: Not assigned, new information collection.
Type of Respondent/Affected Public: Private Sector, Businesses or other for profits, Not-for-profit institutions.

Frequency: Twice a year.
Estimated Number of Respondents per year: 450.

Abstract: The IAF works to promote sustainable development in Latin America and the Caribbean by directly supporting qualified civil society organizations through funding actions, such as grants and cooperative agreements. In order to track grant progress toward desired results and ensure compliance with the terms and conditions of the agreement, the IAF seeks to establish a requirement that grantees provide programmatic and financial information every six months during the grant period, including reporting on project indicators, narrative data on grant achievements and challenges, and a record of spent funds.

This information is necessary as it allows IAF to ensure that the grantee is using project funds responsibly and making the necessary strides toward achieving the results laid out in the grant agreement.
