PART I.—GENERAL INFORMATION

Background.-- This proceeding was instituted in response to a petition filed on April 27, 2023, by Worthington Industries, Columbus, Ohio. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at <https://ids.usitc.gov/case/8125/investigation/8391>.

NRSC covered by this proceeding are certain seamed (welded or brazed), non-refillable steel cylinders meeting the requirements of, or produced to meet the requirements of, U.S. Department of Transportation ("USDOT") Specifications 39, TransportCanada Specification 39M, or United Nations pressure receptacle standard ISO 11118 and otherwise meeting the description provided below ("non-refillable steel cylinders"). The subject non-refillable steel cylinders are portable and range from 100-cubic inch (1.6 liter) water capacity to 1,526-cubic inch (25 liter) water capacity. Subject non-refillable steel cylinders may be imported with or without a valve and/or pressure release device and are unfilled at the time of importation. Non-refillable steel cylinders filled with pressurized air otherwise meeting the physical description above are covered by these investigations.

Specifically excluded are seamless non-refillable steel cylinders.

NRSC are currently imported under statistical reporting numbers 7311.00.0060 and 7311.00.0090 of the Harmonized Tariff Schedule of the United States (HTSUS). They may also be imported under HTSUS statistical reporting number 7310.29.0030 and 7310.29.0065. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Primary HTS statistical reporting numbers.--For the purposes of reporting data in this questionnaire, HTS statistical reporting numbers 7311.00.0060 and 7311.00.0090 are the "primary" statistical reporting numbers.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing NRSC (as defined above) into the United States from a foreign manufacturer or through its selling agent.

India, subject.--For purposes of reporting data to the Commission, data on "India, subject" should include all imports of NRSC from India excluding imports from Inox India Limited, in India. Commerce has preliminarily determined that imports from Inox India Limited are not sold at LTFV, and therefore are preliminarily classified as nonsubject. However, imports from Inox India Limited are still covered by these ongoing investigations, and at a later date may be classified by the Commission as subject, depending on Commerce's final determination as to sales at LTFV.

India, nonsubject.--For purposes of reporting data to the Commission, data on "India, nonsubject" should include only imports of NRSC from Inox India Limited, in India. Commerce has preliminarily determined that imports from Inox India Limited are not sold at LTFV, and therefore are preliminarily classified as nonsubject. However, imports from Inox India Limited are still covered by these ongoing investigations, and at a later date may be classified by the Commission as subject, depending on Commerce's final determination as to sales at LTFV.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Peter Stebbins (202-205-2039, peter.stebbins@usitc.gov).

D-GRIDS tool.--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is optional. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values" –Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment. For the purposes of this questionnaire, commercial U.S. shipments should include (a) sales to distributors, (b) sales to retailers/distributors, and (b) sales to fillers/end users; but should not include retail-level sales made to individual customers through your firm's own retail establishments (either brick-and-mortar stores or online).

"Internal consumption, including product shipped to own firm's retail establishments" –Product consumed internally by your firm, which includes merchandise that your firm shipped to your own firm's retail establishments (i.e., shipped to either a bricks-and-mortar store or to an online order fulfillment center). Such transactions are to be valued at fair market value and not the total value of final downstream processed merchandise in the case of it being used in some further manufactured (i.e., filled) product, nor the retail sale value in the case of your firm owning and operating its own retail establishments.

"Transfers to related firms" –Shipments made to related firms, including to related retailers. Such transactions are valued at fair market value.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" --Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

Note: Report data based on the country of origin (i.e., location where the NRSC was manufactured), which may not be necessarily the last point of shipment or last point of processing (e.g., branding, labeling, packaging, or adding fittings). The country of origin reported in this questionnaire should be consistent with the manufacturer identified on the imported NRSC pursuant to its USDOT, TransportCanada, or United Nations pressure receptacle standard markings.

- II-5a. **U.S. imports from India.**—Report your firm's imports and your firm's shipments and inventories of NRSC imported from subject sources in India (i.e., imports from all firms in India except from Inox India Limited) by your firm during the specified periods.

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.—Generally, the data reported for the end-of-period inventories (i.e., line N) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., lines B and D), less total shipments (i.e., lines F, H, J, and L). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.-- Generally, the data reported for the end-of-period inventories (i.e., line N) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., lines B and D), less total shipments (i.e., lines F, H, J, and L). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

The following questions ask about the costs/benefits (not included in the LDP values reported above) that factor into your firm's decision to import NRSC rather than purchase from a U.S. producer or importer of NRSC.

III-3d. **Additional costs for your firm's imports of NRSC for your firm's internal use, repackaging, or retail sale.—**

- i. Did your firm incur any additional costs by importing NRSC rather than purchasing from a U.S. producer or importer (e.g., logistical or supply chain management costs, warehousing/inventory carrying costs, insurance or other risk management fees, demurrage fees, indirect and overseas costs)?
- ☐ No ☐ Yes—Please answer parts ii, iii, and iv.
- ii. Please provide an estimate of the total additional cost incurred (as a percentage compared to LDP value) when importing NRSC rather than purchasing from a U.S. producer or importer. (Report only the portion that is related to your firm's importing activities, either directly or indirectly, and not already included in the LDP value. Do NOT include any costs that also would be incurred if your firm purchased the product from a U.S. producer or importer.) _____ percent compared to LDP value.
- iii. Please identify and explain the specific additional costs incurred by your firm and estimate each cost (in percent) compared to the cost of importing. (Only report costs and the portion of each cost that was related to your firm's importing activities for NRSC, either directly or indirectly, and that are not already included in the LDP value. Do NOT report costs that your firm would incur when purchasing NRSC from a U.S. producer or importer.)

- iii. Please estimate your firm's savings by importing NRSC instead of purchasing from a U.S. producer or U.S. importer since January 1, 2021 (as a percent of the purchase price from the U.S. importer or U.S. producer). For your estimate, compare the price of purchasing from a U.S. importer or U.S. producer to the cost of direct imports (including the additional costs described above in III-3b).

III-26. **Other explanations.**--If your firm would like to further explain a response to a question in Part III for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section.

Correcting valid number error messages.--If you are completing this questionnaire in a country that uses periods (".") to delineate multiples of 1000 (i.e., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in the numeric form fields. This issue stems from your computer's number formatting setting (i.e., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (",") delineate multiples of 1000 and periods (".") delineate fractions less than one. Many EU and other countries use the reverse where multiples of 1000 are delineated with periods (".") and fractions less than one are delineated with commas (","). The U.S. International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU or other country number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g., "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC importer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy (or your country) settings.
