this survey must be mandatory to be filled out. we need mandated speeds to avoid whale crushing and killing. this is voluntary so of course it does not work to save anything. the whales are being crushed to death with many washing upon the beaches in new jersey and new york. none of them when money is involved is willing to slow down to help nature. they are all fixated on money. make this mandatory immediately to save whales lives. or get the cargo ships out of the area. this comment is for the public record. we don't need all that crap from china anyway. jean public jeanpublic1@yahoo.com
