

Non-Mammalian Cancer Models Survey

This survey is being administered by the NCI Division of Cancer Biology to assess the opinions of grantees (and potential grantees) regarding the use of non-mammalian models in cancer research. Please answer candidly.

OMB Number: 0925-0642

Expiration Date: 03/31/2026

Public reporting burden for this collection of information is estimated to average 2 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0642). Do not return the completed form to this address.

All questions are optional and you may exit the survey at any time.

1. Have you ever been awarded a grant administered by the National Cancer Institute?

- ☐ Yes
- ☐ No
- ☐ Not sure

2. Does your research involve the use of model organisms (i.e. non-human animals)?

- ☐ Yes
- ☐ No

3. What models organism(s) do you use in the lab?

- ☐ Mice (*Mus musculus*)
- ☐ Zebrafish (*Danio rerio*)
- ☐ Fruit flies (*Drosophila melanogaster*)
- ☐ Nematodes (*Caenorhabditis elegans*)
- ☐ Other

4. Are you interested in expanding the number of model organisms used in your research?

☐ Yes

☐ No

5. Do you feel there are opportunities for your research to be supported by the National Cancer Institute?

☐ Yes

☐ No

6. Please indicate how much you agree with the following statement: The National Cancer Institute strongly supports non-mammalian models for cancer research.

☐ Strongly agree

☐ Agree

☐ Disagree

☐ Strongly disagree

7. Please indicate how much you agree with the following statement: Non-mammalian models have untapped potential uses in cancer research

- ☐ Strongly agree
- ☐ Agree
- ☐ Disagree
- ☐ Strongly disagree

8. If you have any general thoughts about the use of non-mammalian model organisms in cancer research, please enter them here.
