it is time to shut down this slanted biased use of our federal govt agencies. this partnership has evolved into one that shuts voice of the public. the us public is getting drowned out by the slant and bias of the close "partnership" of the palsan friends agency has affiliated with. they trade incidents bacn and forth -you rub my back ill rub your and it shut out the us public and from having any voice at this agency. this partnership is in fact destroying democracy for the us citizn. the open and transpa in these insidemeetings that produce profits and slanats for thos in the insider gorup. we dont need insider groups in ameri regulatory agencies are to represent all of the people ofthis country, not just some insiders in partnerships. the work of this : all the citizens is and has been totally shut down to work for all of us in protecting the natural resources that belong to all of u us are inordinately overrrepresented in these partnerships. shut them down. start responding to the entir eus puopulation wh when changes come about the us population needs acouple of months to be fully heard on issue. what is gong on with reg capture by insider pals and "friends" is corrupt and criminal imo. it has operated criminally imo. we need an invesitgaion tob democracy for hte people of this country at this closed organization, caterin g only to its "friends".
