Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. 5 CFR § 1320.8(b)(3)(iii) requires that the public direct to the agency any comments concerning the accuracy of this burden estimate and any suggestions of reducing this burden. This information is required to obtain benefits. HUD may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number. 24 CFR § 200.926d(b)(3) requires that the sites for HUD insured structures must be free of termite hazards. This information collection requires a licensed Pest Control company to provide the builder a record of specific treatment information in those cases when if any method other than use of pressure treated lumber is used for prevention of subterranean termite infestation. When applicable, form HUD-NPMA-99-B must accompany the form HUD-NPMA-99-A. The form serves as a record of termite treatment for builders, pest control companies, mortgage lenders, homebuyers, and HUD. HUD expects its third-party business partners, who collect, use, maintain, or disseminate HUD information to protect the privacy of individual information.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions to reduce this burden the Reports Management Officer, QDAM, Department of Housing and Urban Development, 451 7th Street SW, Room 4176, Washington, DC 20410–5000. When providing comments, please refer to OMB Control No. 2502–0525

This form is submitted for proposed (new) construction cases when prevention of subterranean termite infestation is specified by the builder or required by the lender, the architect, FHA or VA.

This form is to be completed by the builder. This guarantee is issued by the builder to the buyer. This guarantee is not to be considered as a waiver of, or in place of, any legal rights or remedies that the buyer may have against the builder.

Buyer's Name: Builder is to check and complete either box 1 or box 2. 1. Pest Control Company Applied Treatment (See HUD-NPMA-99-B for treatment information) The undersigned builder hereby certifies that a State licensed or otherwise authorized pest control company (where required by State law) was contracted to treat the property at the location referenced above to prevent subterranean termites. The builder further certifies that the contract with the pest control company required the treatment materials and methods used to be in conformance with all applicable State and Federal requirements. All work required by the contract has been completed unless noted on HUD-NPMA-99-B. Where not prohibited by applicable State and Federal requirements, He buyer, for an additional fee payable to the pest control company, may extend the protection against subterranean termities. Contact the pest control company listed on the attachment for further information. The builder hereby guarantees that, if subterranean termite infestation should occur within one year from the date of closing, the builder will ensure that a licensed or otherwise State authorized pest control company will treat as necessary to control infestations in the structure. This further treatment will be without cost to the buyer. If permitted by State law, the buyer may contract directly, at the buyer's expense, with a pest control company in inspect the property on a periodic basis and use EPA registered products to control any infestation. The builder will not be responsible for guaranteeing such contracted work. The builder further agrees to repair all damage by subterranean termities within the one-year builder's warranty period. This guarantee does not apply to additions disterations that are made by the buyer, which affects the original structure or treatment. Examples include, but are not limited to, landscape and mulch alterations, which disturb the treated area and create new subterranean termite heazards, or interfere with the control measures. Consumer Maintenance Advisory regarding integrated Pest Management for Prevention of Wood Destroying insects. Information regarding prevention of wood destroying insect infestation is helpful to any property owner interested in protecting the structure from infestation. Any structure can be attacked by wood destroying insects. Periodic maintenance should include measures to minimize possibilities of infestation in and around a structure. Factors which may lead to infestation from wood destroying insects include foam insulation at foundation, earth-wood contact, faulty grade, firewood against structure, insufficient ventilation, moisture. wood debris in crawl space, wood mulch, tree branches touching structures, landscape timbers, and wood rot. Should these or other such conditions exist, corrective measure should be taken by the owner in order to reduce the chances of infestations by wood destroying insects, and the need for treatment.
