RE: *Federal Register* notice of February 6, 2024 for the Report on Current Employment Statistics
(OMB Number: 1220-0011)

Dear Ms. Rowan:

The Bureau of Economic Analysis (BEA) strongly supports the continued collection of data by the Bureau of Labor Statistics on the Report on Current Employment Statistics. This survey is our main data source for key components of BEA's economic statistics.

BEA uses the survey information on employment, hours, and earnings, by industry and geography to prepare the national income and product accounts (NIPAs), the input-output accounts, the gross domestic product by industry, and the regional accounts. Items used by BEA are listed in the accompanying table.

Please keep BEA informed about any modifications to this form. We are particularly interested in any modifications proposed during the form's approval process that would substantially affect our use of these data. For additional information, please contact Tiffany Burrell, Source Data Coordinator, at 301-278-9618 or by e-mail at Tiffany.Burrell@bea.gov. Should you need assistance in justifying these forms to the Office of Management and Budget, please do not hesitate to contact BEA.

Sincerely,

Dennis J. Fixler
Chief Economist
