Subject: your estimates are way way way off

i dont think thereis any truth or vericity to your reports. it hink they are political reports made up to make joe biden look good. i dont think the employment ius nearly as high as you calculate it. our economy is in real trouble with all the spending and nobody ismaking enough money to even buy food anymore. this comment is for the public record. never seen the usa in such bad shape. jean publiee [jeanpublic1@yahoo.com](mailto:jeanpublic1@yahoo.com)

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

-----

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that the requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be

properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the ``Report on Current Employment Statistics.'' A copy of the proposed information collection request can be obtained by contacting the individual listed below in the ADDRESSES section of this notice.

DATES: Written comments must be submitted to the office listed in the ADDRESSES section of this notice on or before April 8, 2024.

ADDRESSES: Send comments to Carol Rowan, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room G225, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by email to [BLS\\_PRA\\_Public@bls.gov](mailto:BLS_PRA_Public@bls.gov).

FOR FURTHER INFORMATION CONTACT: Carol Rowan, BLS Clearance Officer, 202-691-7628 (this is not a toll free number). (See ADDRESSES section.)

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Current Employment Statistics (CES) program provides current monthly statistics on employment, hours, and earnings, by industry and geography. CES estimates are among the most visible and widely-used Principal Federal Economic Indicators (PFEIs). CES data are also among the timeliest of the PFEIs, with their release each month by the BLS in the Employment Situation, typically on the first Friday of each month. The statistics are fundamental inputs in economic decision processes at all levels of government, private enterprise, and organized labor.

The CES monthly estimates of employment, hours, and earnings are based on a sample of U.S. nonagricultural establishments. Information is derived from approximately 349,000 reports (from a sample of 122,000 employers with State Unemployment Insurance (UI) accounts comprised of 666,000 individual worksites). Each month, firms report their employment, payroll, and hours on forms identified as the BLS-790. The sample is collected under a probability-based design. Puerto Rico and the Virgin Islands collect an additional 8,800 reports.

A list of all form types currently used appears in the table below. Respondents receive variations of the basic collection forms, depending on their industry.

The CES program is a voluntary program under Federal statute. Reporting to the State agencies is voluntary in all but four States (California, New Mexico, Oregon, and South Carolina), Puerto Rico, and the Virgin Islands. To our knowledge, the States that do have mandatory reporting rarely exercise their authority. The collection form's confidentiality statement cites the Confidential Information Protection and Statistical Efficiency Act and mentions the State mandatory reporting authority.

##### II. Current Action

Office of Management and Budget clearance is being sought for the Report on Current Employment Statistics.

Automated data collection methods are now used for most of the CES sample. Approximately 124,000 reports are received through Electronic Data Interchange (EDI). Web data collection accounts for 26,000 reports. Computer Assisted Telephone Interviewing (CATI) is used to collect 66,000.

The balance of the sample is collected through other methods including submission of transcripts, emails, fax, and other special arrangements.

### III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

Enhance the quality, utility, and clarity of the information to be collected.

Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: Report on Current Employment Statistics.

OMB Number: 1220-0011.

Type of Review: Revision of a currently approved collection.

Affected Public: State or local governments; businesses or other for profit; non-profit institutions.

Estimated annual (hours)	Estimated Industry total annual burden (hours)	Number of annual reports	Frequency	Total annual responses	average burden
Natural Resources & Mining..... 0.167	1,439	718	12	8,616
