## General Comment

the public does not support the cdc nor its method dictatorship taking away all constitutional rights from the people of this country. the dictatorship at this health dictatorship has gone way way overboard. we need to have a criminal investigation of where our tax dollars are going. so far they have been going to propaganda and lies fromt eh cdc. there is disrespect for the american public at the cdc.there is demeaning of the people at the cdc. they seekto take all rights of religion, free speech, etc from the people of this country. i am in favor of shutting down this division and instead instituin with our tax dollars a criminal investigoaion of the horrors in the way the people were treated during the 3 year pandemic that made people take crap experimental genes that had not been properlyh clinical trialed., forced people to lose jobs, scared the hell out of people and dismissed the truth of many eminent scientists who told us al the truth. the cdcis smeared itself.it is a disgusting lying agency. i would grade the work of this agency as worth of a zero or f minus. the people of this country cannot tolerate this kind oif regulatorily captured agency where allt he people work part time for big moneyh at big pharma and so they are willin to screw us all for that money by putting out crap products. we have been screwed for the last 20 years by that agency captured by big pharma. you all are robbers. we need to cut all funding forthis agency and shut it down for a while. this agency stinks. its employees let the lies proliferate, afraid to speak truth to us. they let fauci, etc get away with murder. actual murder. a crminal investigation needs to see about health murders that went on by lying to us that it was safe and effective.it was neither. i do not support this agency in any way shape or form. it needs to be shut down.
